

SCIENTIFIC FOUNDATIONS OF HEALTH QUESTION BANK

Note: The answers are bold and highlighted

1. The World Health Day is celebrated on _____.
(a) 1st March **(b) 7th April** (c) 6th October (d) 10th December
2. Cleanliness, physical exercise, rest and sleep are a part of _____.
(a) Hygiene (b) Social hygiene **(c) Personal hygiene** (d) None of the above
3. Which one of the following is an unhealthy habit?
(a) Sharing food (b) Bathing twice a day
(c) Drinking boiled water **(d) Eating without washing one's hand**
4. Which one of the following is not a bacterial disease?
(a) AIDS (b) Dengue (c) Measles **(d) All of the above**
5. Which of the following diseases is also called as "Salmonella enterica serotype Typhi"?
(a) Typhoid (b) Malaria (c) Diarrhea (d) Yellow fever
6. Which of the following is the main cause for transmission of the Hepatitis virus?
(a) The bite of a mosquito **(b) Sharing drug needles**
(c) Drinking contaminated water (d) All of the above
7. Which of the following statements is true about contamination?
(a) Contamination is caused by the entry of germs by an insect bite
(b) Contamination is caused by the entry of germs by an animal bite
(c) Contamination is caused by the entry of germs into drinking water or edible foods.
(d) None of the above
8. Which of the following diseases is not caused by bacteria?
(a) Typhoid **(b) Poliomyelitis** (c) Tuberculosis (d) All of the above.
9. The main cause of contagious disease is _____.
(a) Contaminated Air (b) Contaminated Food (c) Poor hygienic conditions **(d) All of the above**
10. Which of the following factors is necessary for a healthy person?
(a) Vaccination (b) Balanced diet (c) Personal hygiene **(d) All of the above**
11. Which of the following components are major nutrients in our food?
(a) Carbohydrates (b) Lipids and Proteins (c) Vitamins and Minerals **(d) All of the above**
12. Which of the following food components is required for the growth and maintenance of the human body?
(a) Proteins (b) Vitamins (c) Minerals **(d) Both (a) and (b)**
13. Which of the following food components give energy to our body?
(a) Proteins (b) Vitamins (c) Minerals **(d) Carbohydrates**
14. Which of the following food items provides dietary fibre?

- (a) Pulses (b) Wholegrain (c) Fruits and vegetables **(d) All of the above**

15. Which of the following food products are the best sources of animal proteins?

- (a) Milk (b) Egg (c) Cheese **(d) All of the above.**

16. Which of the following mineral functions by building strong bones and teeth?

- (a) Iodine **(b) Calcium** (c) Iron (d) Sodium

17. Egg is a rich source of _____.

- (a) Proteins (b) Vitamins (c) Minerals **(d) All of the above**

18. Which of the following food components does not provide any nutrients?

- (a) Milk **(b) Water** (c) Fruit Juice (d) Vegetable soup

19. Which of the following food items is the best source of plant proteins?

- (a) Milk (b) Egg **(c) Legumes** (d) Cheese

20. Which of the following food components is rich in fat?

- (a) Rice and Maize (b) Milk, egg and beans **(c) Butter, cheese and oil** (d) None

21. Which of the following statements is false about nutrients in milk?

- (a) Milk is a good source of calcium (b) Milk is a good source of protein
(c) Milk is a good source of vitamin C (d) Milk is a good source of vitamin D

22. Guava, Lemon, Orange and Tomato are rich in _____.

- (a) vitamin A (b) vitamin B **(c) vitamin C** (d) vitamin D

23. Potatoes, cereals, beans, pulses and oats are rich in _____.

- (a) Proteins (b) Vitamins (c) Minerals **(d) Carbohydrates**

24. Which of the following is not a component of food?

- (a) Fats (b) Fibres (c) Water **(d) None**

25. The most significant and essential mineral required for our body is _____.

- (a) Iron (b) Sodium (c) Calcium **(d) All of the above**

26. What is the essential first step to a healthier lifestyle?

- a. taking more vitamins **b. making the decision to be abstinent from street drugs**
c. exercising regularly to the point of exhaustion d. none of the above

27. If you don't cope well with stress, it can:

- a. increase your susceptibility to infection b. increase your risk for heart disease
c. interfere with good decision making **d. all of the above**

28. Even if the cause of what is stressing you is out of your control, you know that:

- a. you always have control over your response to the stress
b. you can protect your health by doing relaxation exercises
c. you may be able to redefine it as something you can control

d. all of the above

29. To prevent food borne illnesses:

- a. eat only raw meat, fish, and eggs b. eat canned food even if the cans have bulges or dents

c. wash everything thoroughly—hands, utensils, cutting boards

- d. always thaw frozen food at room temperature

30. Which of the following statements is included in the FDA Dietary Guidelines?

- a. choose a variety of fruits and vegetables daily
b. choose a variety of grains daily, especially whole grains
c. choose a diet low in saturated fat and cholesterol

d. all of the above

31. How many minutes should an average person walk a day?

- 30 minutes** 40 minutes 20 minutes

32. An apple a day _____

- keeps the doctor away** keeps all the troubles away keeps you awake whole day

33. Which vitamin is good for eyes?

- Vitamin D Vitamin K **Vitamin A**

34. What is the recommended daily water intake?

- 0.5 Liters 1 Litre **2 Liters**

35. What are the general sleep requirements for an adult?

- 8 to 12 hours 12 to 14 hours **7 to 9 hours**

36. Why do people have to use bath salts?

- To heal wounds **To relax and sleep better** To soften the skin

37. What is usually recommended as a self care tip for depression?

- Sleeping for less than 7 hours **Active lifestyle** Eating 100 extra calories

38. How do puzzles help you?

- They help you learn numbers **They help exercise the brain** They are a time pass

39. When must you brush your teeth if you brush them only once a day?

Right after dinner

At night before you sleep

In the morning

40. How often you must have a routine body checkup?

Once in 10 years

Once a year

Once in 5 years

41. Communication is a part of _____ Skill

a) Soft

b) Rough

c) Hard

d) Technical

42. Basic Instincts of human life

a) All

b) Self Preservance

c) Social

d) Sexual

43. Types of Addictive Behaviour

a) Video Gaming

b) All

c) Alcoholism

d) Drug Abuse

44. Which of the following food and nutrients helps to fight against diseases

a) Fats

b) Meat

c) Fruits

d) Sugars

45. Which of the following is not a Communication Skill

a) Confidence

b) Listening

c) Feedback

d) Arguing

46. Friendship

a) Dyadic

b) Egalitarian

c) Both a and b

d) None

47. Barriers of Communication

a) Inability to listen to others

b) Jumping to conclusions

c) Cultural Differences

d) All

48. Which of the following is not an Obesity and Overweight complications

a) Plague

b) Type 2 Diabetes

c) Heart Diseses

d) Sleep Apnea

49. Eating Disorders

a) Bulimia Nerevosa

b) Binge Eating Disorder

c) Anorexia Nervoasa

d) All

50. BMI stands for

a) Body Mass Index

b) Body Mass Indicator

c) Body Material Index

d) None

51. Which of the following is NOT a characteristic of addiction?

- a) Negative consequences b) Loss of control **c) Habitual behaviour** d) Denial

52. Which term describes the use of a drug for a purpose for which it was not intended?

- a) Abuse b) Tolerance c) Addiction **d) Misuse**

53. An individual who knowingly tries to protect an addict from natural consequences of his or her destructive behavior is

- a) enabling.** b) intervening. c) encouraging. d) Sheltering.

54. Addiction involves an excessive

- a) amount of debt or financial problems. b) risk of losing one's job or failing out of school.
c) preoccupation with the addictive behavior. d) tolerance for alcohol or drugs.

55. Denial is a person's

- a) inability to perceive that a behavior is self-destructive.**

- b) experience of a blackout episode or memory loss.
c) failure to stop an addictive behavior.
d) change in the usual pattern of drinking or drug use.

56. When increased amounts of a drug, other substance, or behavior is needed to produce the desired effect, this phenomenon is known as

- a) psychological dependence. b) physiological dependence. **c) tolerance.** d) withdrawal.

57. Excessive use of any drug (legal or illegal) constitutes

- a) drug abuse.** b) drug addiction. c) drug misuse. d) drug tolerance.

58. Temporary physical and psychological symptoms that occur when use of an addictive substance is discontinued is

- a) compulsion. b) relapse. **c) withdrawal.** d) addiction.

59. Process addictions include all of the following EXCEPT

- a) the use of Ritalin to help concentration when studying.**

- b) compulsive buying, both in stores and online.
c) exercise addiction to the point of working out at least 3 hours a day.
d) compulsive gambling that results in the need to borrow money.

60.Charlotte, a college student, is a habitual drinker. She has become preoccupied with obtaining alcohol and obsessed with her need to drink. Charlotte is exhibiting

- a) lack of responsibility. b) tolerance. c) denial. **d) compulsion.**

61.Rebecca takes medications for various conditions, including Prinivil (for high blood pressure), insulin (for diabetes), and Claritin (for allergy symptoms). This is an example of

- a) synergism. b) cross-tolerance. c) antagonism. **d) polydrug use.**

62.Chemicals that relay messages (impulses) from one nerve cell to another or to other cells are

- a) chemoreceptors. b) enzymes. **c) neurotransmitters.** d) synapses.

63.Which of the following is NOT an example of drug misuse?

- a) Not following the instructions when taking a prescription medication
b) Taking an over-the-counter medication more often than is recommended
c) Regular use of increasing amounts of cocaine to get high
d) Taking a friend's prescription medication to treat a migraine

64.A lack of judgment regarding whether a particular substance or behavior will be healthy or damaging to oneself is known as

- a) obsession. **b) loss of control.** c) denial. d) compulsion.

65.Which of the following is classified as a stimulant?

- a) Methamphetamine** b) Marijuana c) Alcohol d) LSD

66.Signs of compulsive buying include

1. purchasing several gifts when they go on sale.

2. repeatedly buying more than you need or can afford.

3. purchasing only one item in your favorite color.

4. showing new clothes to your friends or family when you bring them home.

67.Transdermal drug administration means that a drug is

- a) absorbed through the skin.** b) inhaled. c) injected into a vein. d) placed under the tongue.

68.Drugs in suppository form are absorbed into the bloodstream through the

- a) rectal or vaginal walls.** b) alveoli. c) stomach lining. d) intestinal walls.

69.The psychoactive drug mescaline is obtained from which plant?

- a) Peyote cactus** b) Marijuana c) Mushrooms d) Poppy

70.The illicit drug most commonly used in the United States is

- a) amphetamines. **b) marijuana.** c) cocaine. d) heroin.

71.Which of the following statements about cocaine is NOT true?

- a) A cheap and widely available form of cocaine that can be smoked is known as crack.
- b) It is a powerful stimulant.
- c) When snorted, it can damage the mucous membranes.

d) It can cause drowsiness, depression, and loss of appetite.

72. Which of the following statements about amphetamines is true?

- a) They are stimulants.**
- b) They have no known side effects.
- c) They are not addictive.
- d) They can cause a dangerous drop in heart rate and respiratory rate.

73. The most noticeable effect of THC, the psychoactive substance in marijuana, is

- a) slouching posture.
- b) bloodshot eyes.**
- c) hyperactivity.
- d) loss of appetite.

74. Morphine, codeine, and heroin have what in common?

- a) They are all opioids.**
- b) They are all amphetamines.
- c) They are illegal in the United States.
- d) They are all available without a prescription.

75. PCP was originally developed as

- a) an experimental psychiatric medication.
- b) an anesthetic with which a person remains conscious but feels no pain.**
- c) a drug to induce vomiting.
- d) an anesthetic used in veterinary practice

76) A mentally sick person has

- (A) Tendency to get upset with change of routine**
- (B) Feeling of friendship and trust for all
- (C) Tendency to perform all the daily chores by oneself
- (D) Tendency to solve all the problems without aid of others

77) A person is mentally sick if one is

- (A) Worried
- (B) With moods fluctuating between depression and elation**
- (C) Excessively happy
- (D) Extra talkative

78) Community health aims

- (A) Care of the infants old
- (B) Care of infirm
- (C) Improvement of health of all**
- (D) Improvement of health of children

79) Overweight in BMI is

- a) >30 b) >25 c) <25 d) <30

80) Causes of Obesity and Overweight

- a) Energy imbalance b) Energy balance

c) Energy imbalance between calories consumed and calories expended d) None

81) Is addiction a

- a) Mental disorder b) Physical disorder **c) Both (a) & (b)** d) None

82). What are the reasons for taking drugs?

- a) To feel good b) To feel better c) To do better **d) All of the above**

83) What states can do to avoid addiction

- a) Adding higher tax on sweetened beverages b) Benefits for organic fruits

c) Availability of healthy food **d) All of the above**

84) Social health hazards includes

- a) Stigma b) Anti social behaviour c) Higher crime records **d) All of the above**

85) What other factors increase the risk of addiction?

- a) Mental illness b) Early use **c) Both (a) and (b)** d) None

86) Why do some people become addicted to drugs, while others do not?

- a) Aggressive behavior in childhood b) Parental monitoring c) Neighborhood **d) All**

87) What is protective factors for addictions

- a) Positive relationship b) Drug experimentation c) Community poverty **d) All of the above**

88) Types of addictive behaviour

- a) Alcoholism b) Drugs-Opium c) Video gaming **d) All of the above**

89) Mental health hazards includes

- a) Anxiety b) Depression c) Organic mental disorders due to substance use **d) All of the above**

90) How is substance use disorder treated?

- a) Multiple types of treatment b) Recognition of problem c) Alcohol drinking **d) Both a and b**

91) Hyper obesity value in terms of BMI

- a) >25 b) <25 **c) >40** d) <40

92) In the future, which of the following will play a vital role in helping the gaming industry Demystify the nuances of gambling problems?

- a) Sustainability b) a code of conduct **c) internet gaming** d) experienced recreational gamblers

93) Researchers, mental health professionals, problem gambling organizations, and the casino industry have a responsibility to the problem gamblers themselves to

a) avoid bickering unnecessarily.

b) unite with a common goal of reducing the costs associated with gambling.

c) reach a consensus.

d) avoid unnecessary bickering and unite with the common goal of reducing the costs associated with gambling only.

94) What is the definition of overweight?

a) BMI > 25 kg/m² b) BMI = 25 kg/m² c) BMI 25-29.9 kg/m² **d) BMI 25-30 kg/m²**

95) Which of the following diseases does obesity increase the risk of developing?

a) Type 2 diabetes b) Cancer **c) Cardiovascular disease** d) None of the above

96) Which of these factors is not required for communication growth?

a) Growth in size of organizations **b) Negative atmosphere** c) Globalisation d) Public relations

97) Communication is a part of ----- skills

a) Soft b) Hard c) Rough d) Short

98) Communication barriers involves

a) Jumping into the conclusion b) Arguing and debating c) Fear of offending **d) All of the above**

99) Ways to improve the communication skills are

a) Active listening skills b) Passive listening skills c) Both a & b d) None of the above

100) Goals of communication are

a) To inform, to persuade b) To inform, Fear of offending c) To persuade, Fear of offending
d) None of the above

101) Objectives of communication skills are

a) Active listening skills b) Aware of own communication barrier **c) Both a and b** d) None of the above

102) What are the steps to increase the vocal clarity

a) Keep your language simple b) Slow down during conversation c) Feedback **d) Both a and b**

103) How one can improve the communicate skills

a) Listen with willingness b) Respond appropriately c) Provide feedback **d) All of the above**

104) Body language plays an important role in

a) Communication b) Judgment **c) Both a and b** d) None of the above

105) Consumption of this causes increase in the fat synthesis, dilation of blood vessels, low blood sugar and stomach-inflammation

(a) drug addiction and tobacco **(b) alcohol** (c) tobacco (d) drug addiction

106) This causes tunnel vision

(a) Smoking **(b) Alcohol** (c) Barbiturates (d) Vitamin A deficiency

107) After drinking alcohol, consumption of this leads to death

(a) Morphine (b) Opium (c) Barbiturate **(d) All of these**

108) Constituent of alcoholic beverage is

(a) Propyl alcohol (b) Methyl alcohol **(c) Ethyl alcohol** (d) Mix of all of these

109) This is a consequence of alcohol addiction

- (a) psychosis, hypertension and fatty liver syndrome
- (b) cardiovascular diseases, hypertension and fatty liver syndrome
- (c) ulcers, all types of mental illness, vitamin deficiency, cardiovascular diseases
- (d) all of these

110) This causes the maximum accumulation of fat in the liver

- (a) meat and egg
- (b) alcohol**
- (c) saturated fat
- (d) starch

111) What is defined to be a regular and excessive use of a substance in spite of dangers?

- a) Use
- b) Abuse**
- c) Substance
- d) Dependence

112) What is defined to be a condition in which a person develops intense cravings for the substance and the inability to control their behaviors in regards to obtaining and using it?

- a) Use
- b) Addiction**
- c) Substance
- d) Dependence

113) What is the goal of social engineering?

- a) Sabotage a person's social media
- b) To gain vital personal information
- c) To catfish someone
- d) To build trust**

114) Using abbreviations in communication leads to which type of communication barrier

- a) Language/ Linguistic**
- b) Physical
- c) Cultural
- d) Organizational

115) which can be used to overcome the communication barrier

- a) Using a translator**
- b) By writing a letter
- c) Not communicating at all
- d) Using your own language

116) What is health?

- a) Physical wellbeing
- b) Mental Wellbeing
- c) Social Wellbeing
- d) All of the above**

117) Important roles of health are

- a) Fighting diseases
- b) Feeling happy
- c) Enjoy life
- d) All of the above**

118) As per WHO health is defined as a state of complete

- a) physical wellbeing
- b) Mental wellbeing
- c) Social wellbeing
- d) Physical, Mental and social Wellbeing**

119) Wellness is

- a) Positive approach**
- b) Negative approach
- c) Positive or Negative approach
- d) Positive and Negative approach

120) Risk factors that increase a person's illness or injury due to

- a) Smoking
- b) Extreme physical activity
- c) Alcohol drinking
- d) All of the above**

121) Wellness dimensions are

- a) 4
- b) 2
- c) 6
- d) 8**

122) Physical wellness includes

- a) Enhancing sedentary lifestyle
- b) Avoiding sedentary lifestyle**
- c) Creativity
- d) None

123) Intellectual wellness includes

- a) Eating balanced diet b) Drinking sufficient water c) Having good nutrition

d) Mental exercise

124) Symptoms of substance use disorder is

- a) Impaired control b) Social Problems c) Risky use **d) All of the above**

125) Emotional wellbeing includes

- a) Stress situation management** b) Smoking c) Drinking alcohol d) None

126) Which of the following statements is correct?

- a. Health promotion can refer to any event, process or activity that facilitates the protection or improvement of the health status of individuals, groups, communities or populations.
b. The objective of health promotion is to prolong life and to improve quality of life.
c. Health promotion practice is often shaped by how health is conceptualized.

d. all of these

127) This approach to health promotion is synonymous with health education as it aims to increase individuals' knowledge about the causes of health and illness.

- a. behaviour change approach **b. community development approach**
c. biomedical approach d. none of these

128) Signs of mental illness are

- (A) Abnormal changes in thinking, perception and judgement
(B) Abnormal changes in feeling and memory

(C) Both A and B

(D) Abnormal changes in behaviour towards others

129) Psychosis is characterised by

- (A) Loss of touch with reality** (B) Prolonged emotional reaction to a given stress
(C) Anxiety, fear, sadness, vague aches and pains (D) All the above

130) The percentage of population suffering from serious mental illness is

- a) 1% b) 5% c) 8% **d) 10%**

131) A thrust area in community health is

- (A) Prevention and control of communicable diseases **(B) Prevention of blindness**
(C) Maternal and child health (D) School health services

132) People suffering from mental diseases in India number

- a) 1 – 1.5 million **b) 6 – 7 million** c) 10 – 15 million d) 60 – 70 million

133) Social health hazards includes

- a) Stigma b) Anti social behaviour c) Higher crime records **d) All of the above**

134) Community health aims at

- a) Better health and family planning
- b) Better hygiene and clean environment
- c) Removing communicable diseases
- d) All the above**

135) Obesity occurs due to:

- a) more consumption of calorie**
- b) more consumption of protein
- c) more consumption of vitamins
- d) None

136) Which are intimately related?

- a) Disease and health
- b) Body and health
- c) Body and mind**
- d) Body and spiritual values

137) Mental health is a state of development of one's

- a) Personality
- b) Emotional attitude
- c) Both A and B**
- d) Intellect

138) Planning refers to

- a) Communities in which they live in**
- b) Health services
- c) Financial stability
- d) None

139) WHO principles includes

- a) Development of child
- b) Health is one of the fundamental right
- c) Promotion and protection of health
- d) All of the above**

140) Types of health

- a) Mental health only
- b) Physical health only
- c) Mental and physical health**
- d) None

141) Financial health refers to

- a) Physical activity
- b) Mental illness
- c) Good income**
- d) None of the above

142) Spiritual health refers

- a) Meditation**
- b) Exercising
- c) Body composition
- d) All of the above

143) What influence your health

- a) Heredity
- b) Environment
- c) Physical environment
- d) All of the above**

144) Is addiction a

- a) Mental disorder
- b) Physical disorder
- c) Both (a) & (b)**
- d) None of the above

145. Which of the following statements is correct?

- a. Evidence from a variety of social surveys has confirmed the increasingly sedentary lifestyle of modern society.
- b. In 2008, the most common form of occupational and non-occupational physical activity in England was walking.
- c. The most common barriers to doing more physical activity identified by adults in England were work commitments and a lack of leisure time.

d. all of these

146. Which of the following diseases have been associated with sedentary lifestyle?

- e. colon cancer f. stroke g. cardiovascular disease **h. all of these**

147. Environmental psychologists emphasize the importance of taking which of the following into consideration when examining behaviour?

- e. genetics f. brain structure **g. physical and social context** h. none of these

148. Which of the following models propose that behaviour, such as physical activity and exercise, is predicted by intention to engage in such behaviour, which in turn is predicted by the individual's attitude towards exercise and the perceived social norm?

- e. health belief model **f. theory of reasoned action** g. transtheoretical model h. none

149. Health compromising behaviors are commonly seen in people from

- A. high class B. middle class **C. low class** D. none of these

150. Alcohol consumption has been linked to

- A. liver cirrhosis B. high blood pressure C. stroke **D. all of the above**

151. When findings are difficult to generalize to the world outside of the laboratory, we say the research is lacking in _____ validity.

- e. ecological** f. economical g. empirical h. experimental

152. More research is necessary to confirm the assumption that _____ cause positive changes to quality of life.

- e. lifestyle changes** f. research findings g. survey data h. questionnaire responses

153. Which of the following processes are important in explaining obesity?

- e. food environment f. physical activity g. individual psychology **h. all of these**

154. Obesity is caused by an increase in _____.

- e. adiposity** f. epidosity g. ediposity h. apidosity

155. The formula for the body mass index is _____.

e. a person's weight in kilograms squared divided by the square of his/her height in meters(kg^2/m^2)

f. a person's weight in kilograms squared divided by his/her height in meters (kg^2/m)

g. a person's weight in kilograms divided by his/her height in meters (kg/m)

h. a person's weight in kilograms divided by the square of his/her height in meters (kg/m^2)

156. Which of the following health communication style makes use of the patient's knowledge and experience?

- e. doctor-centred communication **f. patient-centred communication**

- g. practitioner-centred communication h. none of these

157. Which of the following charters defined health promotion as 'the process of enabling people to increase control over, and to improve, their health'.

- e. Charter of the United Nations (1945) f. Tokyo Charter (1946)

g. Ottawa Charter (1986)

h. none of these

158. This approach to health promotion aims to improve and promote health by addressing socioeconomic and environmental determinants of health within the community.

e. behaviour change approach

f. community development approach

g. biomedical approach

h. none of these

159. This approach to health promotion is synonymous with health education as it aims to increase individuals' knowledge about the causes of health and illness.

e. behaviour change approach

f. community development approach

g. biomedical approach

h. none of these

160. Which of the following is a characteristic of the community development approach to health promotion?

e. Improving individual attitudes and beliefs are key to successful health promotion.

f. There is a close relationship between individual health and its social and material contexts, thus are relevant when developing initiatives for change.

g. Individuals need to change personal behaviour rather than to change the environment to promote health.

h. all of these

161. Who proposed the biopsychosocial model?

e. Freud

f. Sontag

g. Engel

h. none of these

162. In H.J. Eysenck's twentieth-century theory of personality, how did he reinterpret the classical phlegmatic temperament?

e. stable extravert

f. stable introvert

g. unstable extravert

h. unstable introvert

163. HIV is a retrovirus that infects and colonizes cells in the _____.

e. immune system

f. immune system and the central nervous system

g. endocrine system

h. immune system and endocrine system

164. In 2015, the global prevalence of HIV infection was _____.

e. 0.2%

f. 0.4%

g. 0.6%

h. 0.8%

165. In _____, blood glucose homeostasis ceases to function because the beta cells of the pancreatic islets are destroyed.

e. type 1 diabetes mellitus

f. type 2 diabetes mellitus

g. gestational diabetes

h. both type 2 diabetes mellitus and gestational diabetes

166. Which year did the World Health Organization first express the right to health as a fundamental human right?

e. 1946

f. 1952

g. 1987

h. 2000

167. The influence of families, schools and neighbourhoods in explaining social inequalities in health can be categorised in which of the following systems?

- e. **microsystem** f. mesosystem g. exosystem h. macrosystem

168. Which philosopher was central to the conceptualization of human beings as composed of mind and body?

- e. John Locke f. Plato g. **Rene Descartes** h. Confucius

169. The WHO report in 2013 estimated that tobacco will kill as many as _____ people this century if the WHO Framework Convention on Tobacco Control is not implemented rapidly.
