ADITYA COLLEGE OF ENGINEERING AND TECHNOLOGY
No 2/9, Kamakshipura, Hesaraghatta Hobli, Yelahanka, Bengaluru- 560089
Affiliated to VTU, Belagavi | Approved by UGC/AICTE/Govt. of Karnataka, Bengaluru

Course:	**INNOVATION and DESIGN THINKING**	Course Code	**BIDTK258**
Semester / Section		Date	**23-06-2025**
Name of the Student:		USN	

Assignment- 02

Note: 1. Use the black ballpoint pen to bubble the correct option.

2. Darken the bubbles completely without leaving any gaps Ex:

DO'S	DON'T
A	A
B	B
C	C
D	D

Total Marks

with Faculty Signature

1. _____ improves success rate by almost double by promoting better collaboration and communication
   A. Agile Methodology
   B. Design Thinking
   C. Both A & B
   D. None of the above

2. _____ is a way of breaking down business processes into their most basic elements: the tasks and activities a business carries out.
   A. Business product management
   B. Business process management
   C. Business proper management
   D. none of the above

3. What is the correct order of waterfall model?
   A. design, analysis, construction, testing, deployment and maintenance
   B. analysis, design, construction, deployment, maintenance and testing
   C. analysis, design, construction, testing, deployment and maintenance
   D. analysis, design, testing, construction, deployment and maintenance

4. Which model set easy steps to develop product having stable requirements?
   A. Spiral model
   B. Agile mode
   C. Waterfall model
   D. None of the above

5. Which statement will not explain waterfall model?
   A. Phases are processed and completed one at a time
   B. Very well understood requirements for smaller projects
   C. Management is easy resultant model having rigidity functionalities.
   D. Functional additional capability to enhance the product performance at any phase

6. The output of development phase will be input of which phase in waterfall model?
   A. Implementation
   B. Testing
   C. Design
   D. Maintenance

7. Which phase of waterfall model takes maximum time?
   A. Design
   B. Development
   C. Requirement, gathering and analysis
   D. Testing

8. The second phase of waterfall model is
    A. System design
    B. Implementation
    C. Testing
    D. Requirement, gathering and analysis

9. Waterfall model is better for small individual projects
    A. True
    B. False

10. Story telling will help in
    A. showcasing the essence of the idea or solution clearly and visually.
    B. Connects the message at an emotional, human level
    C. Motivating and inspiring the audience to take actions
    D. All of the above

11. _____ is the ability to focus on the ultimate goal and work backward to ensure alignment of action to this goal as one plan or resolves problems.
    A. Transformation by Design
    B. Adaptable Enquiry
    C. Strategic Thinking
    D. None of the above

12. The Three Phases of Design thinking are
    A. Inspiration, Ideation and involvement
    B. Ideation, Inclusiveness and Implementation
    C. Inspiration, Ideation and Involvement
    D. Inspiration, Ideation and Implementation

13. Strategic foresight includes
    A. Ask Strategic questions
    B. Observe and reflect
    C. Consider opposing ideas
    D. All of the above

14. The six elements of Strategic thinking are
    A. Anticipate, Challenge, Interpret, Dissolve, Align and Learn
    B. Anticipate, Challenge, Interpret, Decide, Align and Learn
    C. Forecast, Challenge, Interpret, Dissolve, Align and Learn
    D. Anticipate, Challenge, Declare, Decide, Align and Learn

15. Design thinking is also known as
    A. Adaptable Enquiry
    B. Strategic Design Thinking
    C. Transformation by Design
    D. All of the above

16. Human-centric design was re-interpreted as an acronym to mean
    A. Hear, Create, Deliver
    B. Hear, Create, Design
    C. Hold, Create, Deliver
    D. Hear, Compile, Deliver

17. What is Design Thinking?
    A. A method facilitated by UX designers
    B. A process for creative problem solving
    C. A process to teach design to non-designers
    D. A methodology developed to discard old design methods

18. _____is an iterative and incremental method of managing development and design.
    A. Waterfall Model
    B. Agile Methodology
    C. Cyclic Methodology
    D. All of the above

19. The goal of the prototype phase is
    A. To understand what component of your idea didn't work
    B. To understand what component of your idea worked
    C. Both of them
    D. None of them

20. Business Process Model is concerned with:
    A. Technology Aspects
    B. Business Aspects
    C. Financial Aspects
    D. All the three

21. Stake Holders in a project include:
    A. Project development team
    B. Business Analysts
    C. End Users
    D. All the above

22. Agile Software Development team size is normally:
    A. Small
    B. Large
    C. Medium
    D. Is not specified.

23. Agile software development involves:
    A. One large development cycle
    B. Several small cycles
    C. A waterfall model
    D. A spiral model

24. The goal of the prototype phase is
    A. To understand what component of your idea didn't work
    B. To understand what component of your idea worked
    C. Both of them
    D. None of them

25. The three “I” s of Design Thinking DO NOT include
    A. Interest
    B. Implementation
    C. Inspiration
    D. Ideation

26. What is Design Thinking?
    A. A method facilitated by UX designers
    B. A process for creative problem solving
    C. A process to teach design to non-designers
    D. A methodology developed to discard old design methods

27. In the Create phase we DO NOT
    A. Recognize existing knowledge in the challenge space
    B. Recruit participants for the co-design task from a diverse pool of those affected
    C. Maintain awareness of sensitivities by avoiding judgements
    D. Encouraging storytelling and expression

28. A prototype is a simple experimental model of a proposed solution used to
    A. test ideas
    B. validates ideas
    C. Both
    D. None of the above

29. What is your first model/design of a product called?
    A. Draft
    B. Rough Draft
    C. Prototype
    D. Practice Design

30. At what step do you want to complete the POV - point of view?
    A. Empathy
    B. Prototype
    C. Define
    D. Ideate

31. Design thinking is a linear process?
    A. True
    B. False

32. What helps the design team and client to visualize and handle the design concept
    A. Define
    B. Ideate
    C. Empathize
    D. Prototype

33. The ultimate goal of design thinking is to help you design better
    A. Services
    B. Products
    C. Experiences
    D. All of above

34. Design thinking typically provides a solution based to problem solving
    A. True
    B. False

35. Which of the following is not one of the profiles of design thinkers?
    A. Empathy
    B. Simplicity
    C. Integrative thinking
    D. Optimism

36. To measure the Growth of an organization:
    A. Growth in the of employees to be reviewed regularly
    B. Growth in technology to be reviewed regularly
    C. Cost elimination and profit improvement to be reviewed regularly
    D. Cash inflow is the only criteria

37. In a good story telling, the leader communicates to the employees:
    A. Company’s past
    B. Company’s Present
    C. Companies Future
    D. All the above

38. Building Empathy in a company is concerned with:
    A. Financial Aspects
    B. Emotional Aspects
    C. Morale Aspects
    D. Efficiency aspects

39. Strategic Foresight involves:
    A. Maximizing profits
    B. Minimizing Delays in delivery
    C. Enriching customer experience
    D. Ability to manage the uncertainties of the future

40. Resistance to change is:
    A. Good for the growth of a company
    B. Indicative of the decline of the company
    C. Results in company growth
    D. Does not impact the growth of a company

41. Tools for design thinking are
    A. Visualization
    B. Journey Mapping
    C. Mind Mapping
    D. All of the above

42. _____refers to any activity that takes information beyond text and numbers and into images, maps, and stories.

A. Visualization
B. Journey Mapping
C. Mind Mapping
D. Prototyping

43. _____is an ethnographic research method that focuses on tracing the customer's "journey" as he or she interacts with an organization while in the process of receiving a service, with special attention to emotional highs and lows.

A. Visualization
B. Journey Mapping
C. Mind Mapping
D. Prototyping

44._____examines how an organization interacts with value chain partners to produce, market, and distribute new offerings.

A. Visualization
B. Journey Mapping
C. Value Chain Analysis
D. Prototyping

45. _____is used to represent how ideas or other items are linked to a central idea and to each other.

A. Visualization
B. Journey Mapping
C. Value Chain Analysis
D. Mind Mapping

46._____is a tool for using the insights and design criteria generated to develop new business opportunities.

A. Visualization
B. Journey Mapping
C. Value Chain Analysis
D. Rapid Concept Development

47. _____is a tool for bringing to the surface the key assumptions underlying the attractiveness of a new business concept and using available data to assess the likelihood that these assumptions are true.

A. Visualization
B. Assumption Testing
C. Value Chain Analysis
D. Rapid Concept Development

48. _____is based on the belief that the users' presence is essential in the creative process, as the users provide insight into what is valuable to them.

A. Prototype
B. Assumption Testing
C. Co Creation
D. Rapid Concept Development

49. _____are designed to test the key underlying value-generating assumptions of a potential new-growth initiative in the marketplace.

A. Prototype
B. Learning Launches
C. Co Creation
D. Rapid Concept Development

50. _____is a simple experimental model of a proposed solution used to test or validate ideas, design assumptions and other aspects of its conceptualization quickly and cheaply, so that the designer/s involved can make appropriate refinements or possible changes in direction.

A. Prototype
B. Learning Launches
C. Co Creation
D. Rapid Concept Development

KEY ANSWERS:

SL No.	Option	SL No.	Option	SL No.	Option	SL No.	Option	SL No.	Option
1	**C**	11	**C**	21	**D**	31	**B**	41	**D**
2	**B**	12	**D**	22	**A**	32	**D**	42	**A**
3	**C**	13	**D**	23	**B**	33	**D**	43	**B**
4	**C**	14	**B**	24	**C**	34	**A**	44	**C**
5	**D**	15	**A**	25	**A**	35	**D**	45	**D**
6	**B**	16	**B**	26	**B**	36	**C**	46	**D**
7	**C**	17	**B**	27	**A**	37	**D**	47	**B**
8	**D**	18	**B**	28	**C**	38	**B**	48	**C**
9	**B**	19	**A**	29	**C**	39	**D**	49	**B**
10	**D**	20	**D**	30	**A**	40	**B**	50	**A**
