ADITYA COLLEGE OF ENGINEERING AND TECHNOLOGY
No 2/9, Kamakshipura, Hesaraghatta Hobli, Yelahanka, Bengaluru- 560089
Affiliated to VTU, Belagavi | Approved by UGC/AICTE/Govt. of Karnataka, Bengaluru

Course Code & Name: BPLCK105C & BASICS OF JAVA PROGRAMMING

Year/Semester/Branch: I/I/DS/AIML/EC/ECS

SEC:E&F

Year-2024-2025

Question Bank

Module-1

Sl. No	Questions
1.	Explain Object Oriented Principles.
2.	Write a Simple java program and explain compilation process.
3.	Describe the meaning of each of the keyword in "Public static void main".
4.	Explain two control statements used in Java with syntax and example.
5.	Explain different lexical issues in JAVA.
6.	Explain the 8 primitive data types in Java.
7.	Define a variable. Explain declaration and initialization of a variable.
8.	Explain Scope and lifetime of variables with an example.
9.	What is type conversion and type casting? Explain with example. **(or)** Explain JAVA's Automatic conversions and casting incompatible type.
10.	Explain automatic type promotion in expressions with rules and demo program.
11.	Explain one dimensional and two dimensional array with example for each. **(or)** What is an array? Write a program to demonstrate a one dimensional array.
12.	How are arrays declared and initialized in JAVA. Explain with suitable examples.
13.	What is multidimensional array? Explain with an example program.
14.	Write a note on integer literals.

Module-2

Sl. No	Questions
1.	Explain the basic Arithmetic Operators.
2.	Explain: i)Increment and decrement operators ii)Ternary operator.
3.	Explain Bitwise operators.

	(or) Explain the following operators with example. i)<< ii)>> iii)>>> iv)& **(or)** Explain bitwise logical operators with an example program.
4.	List and explain Relational operators.
5.	Explain Short – circuit logical operators.
6.	Explain different types of if statement with example program.
7.	Explain the syntax of switch statement with example.
8.	Explain Iteration statements with example.
9.	Write note on : i)Break ii)Continue.
10.	List and explain jump statements in JAVA.

Module-3

Sl. No	Questions
1.	Explain Class with an example. **(or)** Explain General form of a class with an example.
2.	Explain two – ways of argument passing methods with example.
3.	What are Constructors? Explain two different types of constructors with example program.
4.	Explain constructor overloading and method overloading with example.
5.	Explain “this” keyword with example.
6.	Explain i) Garbage collection in Java ii) finalize () method.
7.	Write a JAVA program to perform Stack operation using proper class and methods.
8.	Illustrate with an example program to pass objects as arguments.
9.	Demonstrate the working of Recursion with example.

Module-4

Sl. No	Questions
1.	Explain different types of inheritance in JAVA.
2.	Describe the uses of Super Keyword with example.
3.	What is Inheritance? Explain how a Super class variable can reference a subclass variable.
4.	Explain method overriding with example program.
5.	Write a note on : i)Final class ii)Final method.

6.	Explain dynamic method dispatch with example.
7.	What is abstract class? Explain with an example program.
8.	Demonstrate the working of final class and final method in JAVA.
9.	Explain the method of object class with their purpose in Java.
10.	Compare and contrast b/w overloading and overriding in Java with example program for each.

Module-5

Sl. No	Questions
1.	What is a Packages? Explain with example.
2.	Demonstrate the working of interface in JAVA.
3.	Explain the concept of access protection in JAVA.
4.	What is an exception? Give an example.
5.	Explain the try and catch block with example.
6.	Explain Nested throw statement in JAVA.
7.	Explain types of Exception. Explain different mechanisms of handling the exception in Java.
8.	Explain Nested interfaces with example.
9.	Describe different access specifiers used in JAVA.
10.	Explain how one interface can be extended by another with an example program.
11.	Explain Chained Exception with an example program.
12.	Explain the procedure of creating our own exception.
