Universal Human Values

CODE: BUHK408

Module 1:

Introduction to Value Education: Right Understanding, Relationship and Physical Facility (Holistic Development and the Role of Education) Understanding Value Education, Self-exploration as the Process for Value Education, Continuous Happiness and Prosperity – the Basic Human Aspirations, Happiness and Prosperity – Current Scenario, Method to Fulfil the Basic Human Aspirations.

Module 2:

Harmony in the Human Being: Understanding Human being as the Co-existence of the Self and the Body, distinguishing between the Needs of the Self and the Body, The Body as an Instrument of the Self, Understanding Harmony in the Self, Harmony of the Self with the Body, Programme to ensure self-regulation and Health.

Prepared By:

Nayan Kumar H N
Assistant Professor
Dept. of Physics
ACET

Unit-1: Value Education

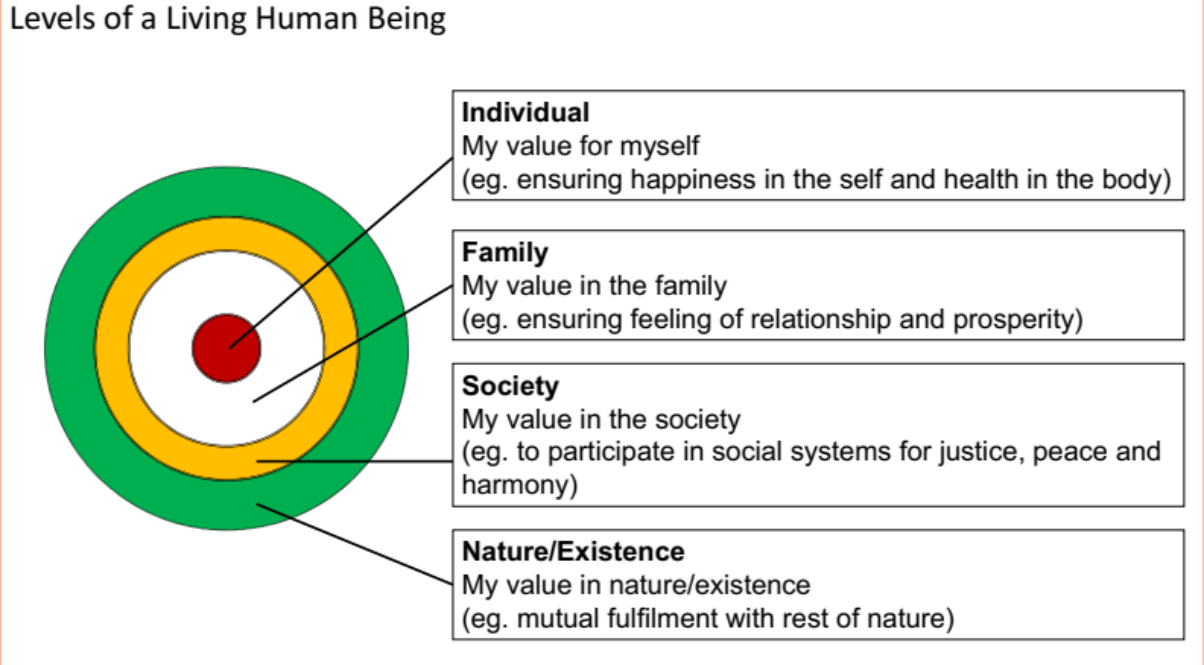

Harmony is usually identified as a human value, referring to compatibility and accord in feelings, actions, relationships, opinions, interests, etc. It denotes a state of balance among forces influencing and even opposing one another

For example: “what to do” is “what is important” is “what is valuable”

The ***value of an entity*** is its participation in the larger order of which it is a part. For an example, the value of a pen is that it can write. Here writing is the participation of the pen in the bigger order in which it is present along with paper and human being.

For human being, this bigger order includes other human beings, plants, air, water, soil, animals, birds, etc., i.e. the entire nature/existence. The value of a human being is its participation in this entire nature/existence. Hence, to understand human values, we need to study the human reality along with all that is there in the entire nature/existence which constitutes the larger order. The role of human being is to understand and fulfil its relationship with each and every unit in the existence. The part of education that deals with the understanding of one’s participation in the larger order, and thus ensuring it in living, is called as Value Education.

Different Levels of living Human Being

1. ***Living in Myself:*** We all have desires, thoughts, beliefs, imaginations and choices**.** This is the first level of our living. Before expressing ourselves in relations, we think, and whatever we receive from the other, it again passes through our internal processes. We refer to this as (our) Self. This inner world (or 'myself') co-exists with the body and together we refer to this as a 'human being'.
2. ***Living in Family:*** All of us are born to our parents and this is the family we are born to. This is the first web of relationships for each one of us and subsequently we live in more relationships that include our siblings, our friends and classmates, teachers and others. These are the people we live with on a daily basis, and we call this 'family'.
3. ***Living in Society:*** Our family is part of a larger group of people we live with where there are interdependencies around food, clothing, housing, services, health, education, justice etc. We live as a part of this human system. This is our society.
4. ***Living in Nature/Existence:*** We are on this earth: with the grass, plants and trees, birds, animals and other humans surrounding us and we live in this large eco-system that we call nature. Regardless of where we are, our village, town or city, is within this eco-system or natural habitat. Our planet is surrounded by a larger system of planetary bodies and that includes the moon, the sun and the infinite stars and planetary systems that surround us. Our earth is a part of the solar system that co-exists with all that there is in this entire 'existence'. And then there is space between planets, even between you

and the book right now! All these things present in space are together called as existence. 'Existence' means all that exists.

- ❖ Value of a unit is its participation in the larger order.
- ❖ Identification of values is based on realization and understanding
- ❖ Human values = Value of human being is its participation in the larger order
- ❖ The participation of human being is in the form of behaviour & work
- ❖ Values of behaviour are present as 9 parts in a relationship (Trust, Respect, Affection, Care, Guidance, Reverence, Gratitude, Glory & Love).
- ❖ Working with material things, ensuring their right utilization, enrichment & protection is the human value.
- ❖ The value of a human being is its participation that leads to harmony at all these levels.
- ❖ In human-human interaction, living in accordance with human values leads to mutual happiness
    - o Your happiness
    - o Happiness of the other human being
- ❖ In human-rest of nature interaction, living in accordance with human values leads to mutual prosperity
    - o Your prosperity
    - o Prosperity of rest of nature.

Understanding	What to do?	Value	Value Education
Learning	How to do?	Skills	Skill Development
Doing	Use of Skills.	Skills guided by Values	Practice

Meaning of Value Education: Value Education is the education which enables to understand 'what is valuable' for human happiness. It is all about enabling a transformation in the human beings to help them move from Animal Consciousness to Human Consciousness.

Need for Value Education:

1. Correct identification of our aspirations: The subject which enables us to understand 'what is valuable' for human happiness is called 'value education' (VE). Thus, VE enables us to understand our needs and visualize our goals correctly and also indicate the direction for

their fulfilment. It also helps to remove our confusions and contradictions and bring harmony at all levels.

2. **Understanding universal human values to fulfil our aspirations in continuity:** Values form the basis for all our thoughts, behaviours and actions. Once we know what is valuable to us, these values become the basis, the anchor for our actions. We also need to understand the universality of various human values, because only then we can have a definite and common program for value education. Then only we can be assured of a happy and harmonious human society.

3. Complementarity of values and skills: To fulfil our aspirations both values and skills are necessary. When we identify and set the right goals and produced in right direction. This is known as **value domain**, the domain of wisdom, and when we learn and practices to actualize this goal to develop the techniques to make this happen in real life, in various dimensions of human endeavour (struggle). This is known as **domain of skills.** Hence, there is an essential complementarity between values and skills for the success of any human endeavour. Ex: I want to lead a healthy life. Only wishing for good health will not help me keep my body fit & healthy and without having understood the meaning of health, I will not be able to choose things correctly to keep my body fit and healthy.

4. **Evaluation of our beliefs:** Each one of us believes in certain things and we base our values on these beliefs, be they false or true which may or may not be true in reality. These believes come to us from what we read, see, hear, what our parents tells us, our friends talk about, what the magazines talk of, what we see from TV etc. Value Education helps us to evaluate our beliefs and assumed values.

5. **Technology and human values:** The present education system has become largely skill based. The prime emphasis is on science and technology. However, science and technology can only help to provide the means to achieve what is considered valuable. It is not within the scope of science and technology to provide the competence of deciding what really is valuable. Value Education is a crucial missing link in the present education system. Because of this deficiency, most of our efforts may prove to be counterproductive and serious crises at the individual, societal and environmental level are manifesting.

Basic Guidelines for Value Education:

1. Universal: Whatever we study as value education has to be universally applicable to all human beings and be true at all times and all places. In addition, it need not restrict itself to a certain sect, creed, gender or nationality etc. So, it has to deal with universal human values.

2. Rational: It has to be amenable to reasoning and not based on dogmas or blind beliefs. It cannot be a set of sermons or Do's and Don'ts.

3. Natural and Verifiable: We want to study something that is natural to us. Being natural means, it is acceptable in a natural manner to all human beings. When we live on the basis of such values that are natural to us, it leads to fulfilment, leads to our happiness and also is conducive to other people we interact with, as well as with nature. We also would like to verify these values ourselves, i.e. we don't want to assume something just because it is being stated here or written in a book, rather, each one of us will want to verify these to find out whether they are true for us. This has to be done by both checking for validity within ourselves, as being naturally acceptable as well as something which we can implement in our living and observe its outcome to be fulfilling.

4. All Encompassing: Value education is not merely an academic exercise. It is aimed at transforming our consciousness and living. Hence, it has to permeate into all dimensions of our living, namely, thought, behaviour, work and understanding/realization; as well as all levels, viz, individual, family, society and nature.

5. Leading to Harmony: Finally, value education has to enable us to be in harmony within and in harmony with others. Hence, when we live on the basis of these values, we start understanding that it will it will

Contents of Value education: The contents should be **Holistic** (considered as a whole thing rather than a collection of parts) & **All Encompassing** (Including or covering everything or everyone)

Covers all dimensions of human being, (as an Individual):

1. Understanding/Realization
2. Thought
3. Behaviour
4. Work/Participation in larger order

Content of Value Education:

1. To understand myself, my aspirations, my happiness

2. To understand the goal of human life

3. To understand the other entities in nature, their inter- connectedness and co-existence and role of human being in nature

4. To understand harmony at the four levels of human living

5. learning to live in accordance with all the above understandings by being aware of one's thought, behaviour and work.

Scope of Value Education: Any course on value education must include

1. All dimensions- thought, behaviour, work & and realization and

2. All levels of human living - individual, family, society, nature/existence of human living.

Accordingly, the content of Value Education will be to understand myself, my aspirations, my happiness; understand the goal of human life comprehensively; understand the other entities in nature, the innate inter-connectedness, the co-existence in the nature/existence and finally the role of human being in this nature/existence entirety. Hence, it has to encompass understanding of harmony at various levels, namely, individual, family, society, nature and existence, and finally, learning to live in accordance with this understanding by being vigilant to one's thought, behaviour and work.

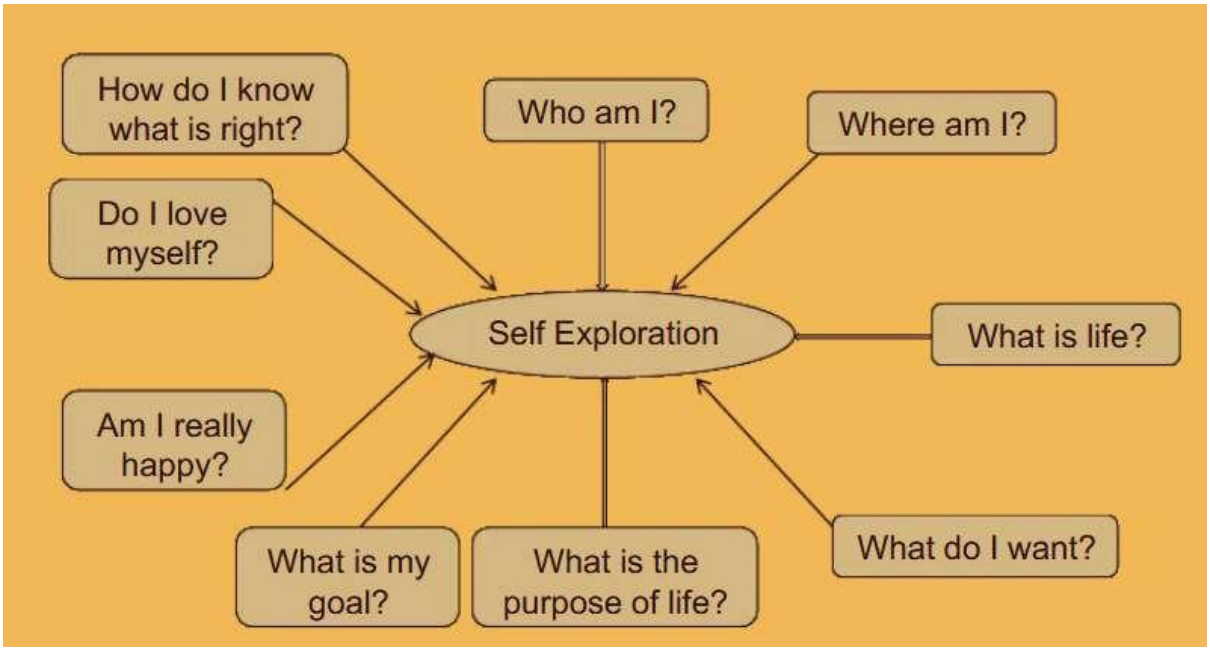

The Process of Value Education: The Process of value education is through *Self-Exploration*

Self-Exploration:

Self-exploration involves two steps:

1. Verification of the proposals on the basis of our natural acceptance

2. Experiential validation by living according to it.

Natural Acceptance (Svatva): It is the process of seeing and observing everything and then using your inner conscience to get the answer from within. It is a way to bring out the goodness in everything naturally. It helps us to learn everything that is good from others and absorb it in our own way, but without changing our identity.

Alternatively, Natural acceptance implies unconditional and total acceptance of the self, people and environment. It also refers to the absence of any exception from others. In other words, Natural acceptance is way to accept the good things naturally.

Characteristics of Natural Acceptance:

- **It does not change with time/age**: What is naturally acceptable to you today is the same as what was naturally acceptable to you yesterday, and what will be naturally acceptable to you tomorrow. For example, our natural acceptance for the feeling of trust, for the feeling of respect in relationship remains invariant with time: a child naturally accepts having the feeling of trust. Twenty years later, when (s)he becomes a youth, she still has a natural acceptance for trust; and when she grows into an old person, (s)he continues to have a natural acceptance for the feeling of trust – there is no change in the natural acceptance with time for any given person.
- **It doesn't depend on place:** Naturally acceptable feelings, like trust, respect, affection, etc. remain invariant with place. These feelings are naturally acceptable to me when I am in India, in America, in Africa, in Europe or in any other place. Like that, my natural

acceptance to keep the Body healthy does not change with place. No matter where we are, we have the same natural acceptance at all the places.

- **Natural acceptance is uncorrupted by likes and dislikes or assumptions or beliefs:** We have taken the examples of this above also. When we ask the right questions, we can see our natural acceptance and it is there. Natural acceptance remains unaffected by our likes and dislikes, our belief systems and our preconditioning even if they are very deep and influence our thoughts day and night. For example, even if we are preconditioned for years 'not to trust anyone', if we ask the question as to what is naturally acceptable 'trust or mistrust', the answer is in favour of trust.
- **Natural acceptance is innate; we don't need to create it:** Whatever be the background of a person, this faculty is very much there. For example, the moment we think of disrespecting someone, how does it feel within? Comfortable or uncomfortable? Similarly, the moment we think of opposing anyone, how does it feel? Are we at ease or we feel uneasy? Of course, uneasy. Why is this happening? Because we have the faculty of natural acceptance as a part and parcel of our being and it keeps hinting that what we are feeling, thinking or doing is in harmony with our own natural acceptance or not. We can start referring to it at any time, it is always there.
- **Natural acceptance is definite:** It is for relationship, harmony and co-existence which is universal. This we can directly verify by asking, what is naturally acceptable to us – relationship or opposition, harmony or disharmony, co-existence or struggle? When we look into the details of relationship, harmony and co-existence, in chapters to follow, we will ask these questions again regarding each and see that these three -relationship, harmony and coexistence, ultimately provide the guidance for our living in harmony, happiness.

Self-exploration: Exploration = Observing Outside

Self-Exploration = Observing Inside

It is the process to find out what is valuable to me by investigating within myself. What is right for me and true for me and has to be judged within myself. Once we start paying attention towards investigating into our present beliefs and aspirations, we get to know whether our aspirations and what we really want to be (i.e. what is naturally acceptable to us) are one and the same or not. If they are the same, then it's no problem. But if the two are different, it means that we are leading a life against our natural acceptance. Such a life cannot bring us happiness.

or

Self-exploration is a process of discovering that there is something innate (existing in, belonging to), invariant (never changing) and universal in all human beings. This enables us to look at the confusions and contradictions within us and resolve them by becoming aware of our natural acceptance. Once we start observing inside, we can achieve harmony at all levels of our living.

Content of self-exploration involves finding answers for the following fundamental questions of all the human beings:

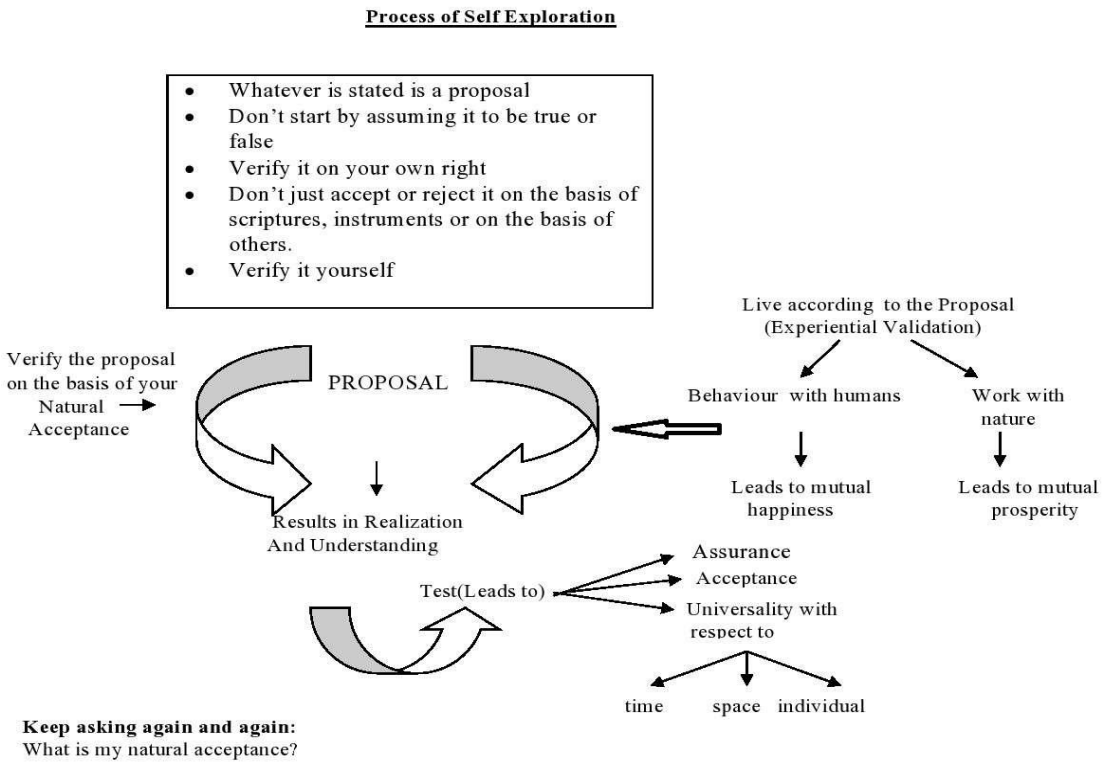

1. **The Desire/Goal/Aspiration**: What is my (human) Desire/ Goal? What do I really want in life or what is the goal of human life?.
2. **The Program**: What is my (human) program for fulfilling my aspirations? How to fulfil it? What is the program to actualize the above?

Purpose of Self-Exploration:

1. **It is a process of dialogue between "what you are" and "what you really want to be":** We will look into ourselves and find out what we are today, and how these contrasts from what we really want to be. If these two are the same, then there is no problem. If on investigation we find that these two are not the same, then it means we are living with this contradiction (of not being what we really want to be) and hence, we need to resolve this contradiction, this conflict within us.
2. **It is a process of self-evolution through self-investigation**: By self-investigation, we shall work towards being what we really want to be. Hence, the self-exploration leads to our own improvement, our own self-evolution – we will become qualitatively better. We can be more in harmony within ourselves.
3. **It is a process of knowing oneself and through that, knowing the entire existence:** Thus, self-exploration leads to us knowing ourselves better. Today, we are largely unaware of our own characteristics, our own assumptions, beliefs and pre-conditionings. We will go beyond these beliefs to know ourselves. Once we have known ourselves, and we are sure of it, we can then also know all the things around us correctly. This way, we can be sure of these things in our own right, we can be authentic about them. We don't have to continue to live merely with assumptions about these things.

4. **It is a process of recognizing one's relationship with every unit in existence and fulfilling it:** Once we start knowing ourselves and everything beside us, we shall understand our relationship with them i.e. we shall understand our relationship with other humans, animals, plants and matter etc. We shall then know how we have to live in harmony with all these things.
5. **It is a process of knowing human conduct, human character and living accordingly:** None of us wants to live with uncertainty. If our state of mind, our own behaviour keeps changing, we are not comfortable with ourselves. We all desire for certainty and stability. Once we know our own true nature, we will also understand what is our participation with the other things we live with – this is the ethical human conduct or the humane conduct. This is what characterizes a human being. When we know this true human character, we start moving towards it in a natural manner.
6. **It is a process of being in harmony with oneself and in harmony with entire existence:** Through the process of Self-exploration, I establish a dialogue with my natural acceptance. This enables me to be in harmony within myself. Through the same process, I am able to explore into the harmony in the entire existence. We slowly come to realize (and we will keep talking about this in the entire book) that there is an innate harmony in the existence. I only need to discover this. And once I do this, I can learn to live in harmony with the entire existence. Thus the process of Self-exploration helps me live in harmony within myself and in all my interactions with the world around.
7. **It is a process to identify our innateness (Svatva) and move towards Self Organization (Swantantrata) and Self-Expression (Swarajya):** When I identify my innateness, what I really want to be and establish a dialogue with it, it enables me to become Self-organized, i.e. I attain harmony in myself. This is Swatantratã. When I start living with this harmony, it starts expressing itself through my harmonious behaviour and work, and it naturally extends to my participation with the surroundings. This is working towards Swarãjya.

   Svatva: (Existing in, belonging to, or determined by factors present in an individual from birth) To know your Natural Acceptance & what you want to be. **Swatantratã**: Being self-organised: Being in harmony in oneself. **Swarãjya:** Self-expression, Self-extension: Living in harmony with others, and thus participation towards harmony in the whole existence

The proposals stated are verified on the basis of our natural acceptance and tested it out in our living, which ultimately results in "realization" and "understanding" in us. This means, knowing something to be "true", for sure, within ourselves.

The answers we get on having realization & understanding are:

(a) ***Assuring:*** *"*I am assured of the answer or understanding in myself"

(b) ***Satisfying:*** "I am satisfied that the answers are fulfilling for me.

(c) ***Universal:*** *"*I know or realize that the answers I have got are the same for everyone.

They are invariant with respect to:

(i) ***Time:*** These answers are the same at all times: past, present and future

(ii) ***Space:*** These answers are the same at all places or locations

(iii) ***Individual:*** The answers are the same for every human being

If the answers we get do not fulfil any of the criteria of being assuring, satisfying and universal, it means the answer is most likely coming from your past beliefs/conditioning and not from your natural acceptance. Hence, we need to re-verify the answer.

Basic aspirations of a human being

All human beings basically aspire for/ want the following in their life:

i. Continuous Happiness

ii. Prosperity

Happiness: Happiness may be defined as being in harmony/ synergy (the added success, energy, or power gained by two people or organizations working together, which is better than the result achieved by them working separately) in the states/ situations that we live in. Happiness is being in a state of liking. Unhappiness is a lack of this synergy or harmony. To be in a state of disliking is unhappiness.

- Happy situations comprise of feelings such as trust, respect, confidence etc. All these feelings carry an element of harmony in them. Hence they make us feel relaxed and happy.

- On the other hand, feelings like failure, disrespect, lack of confidence, doubt etc. lack the element of harmony and hence make us unhappy.

Happiness	**Continuous Happiness**
The state or situation, in which I live: ↓ If there is harmony / synergy (*The added success, energy, or power gained by two people or organizations working together, which is better than the result achieved by them working separately*) in it, ↓ then it is Naturally Acceptable to me to be in that state / situation (and I want to continue to be in that state / situation), ↓	State / Situation in which I live or expanse (*great extent*) of my being: 1. As an Individual Human Being 2. As a member of a Family 3. As a member of Society 4. As a unit in Nature/Existence

To be in a state / situation which is Naturally To be in a state of Harmony / Synergy is Happiness ↓ **Happiness = To be in Harmony**	**Continuity of Happiness = Harmony at all levels of being** i.e. 1. Harmony in the Human Being 2. Harmony in the Family 3. Harmony in the Society 4. Harmony in Nature/Existence

Prosperity: In addition to happiness, we also aspire for adequate fulfilment of our bodily needs i.e. the need for physical facilities. These Physical Facilities are the material things we use in order to fulfil the needs of our body. Having enough physical facilities gives us a feeling of prosperity.

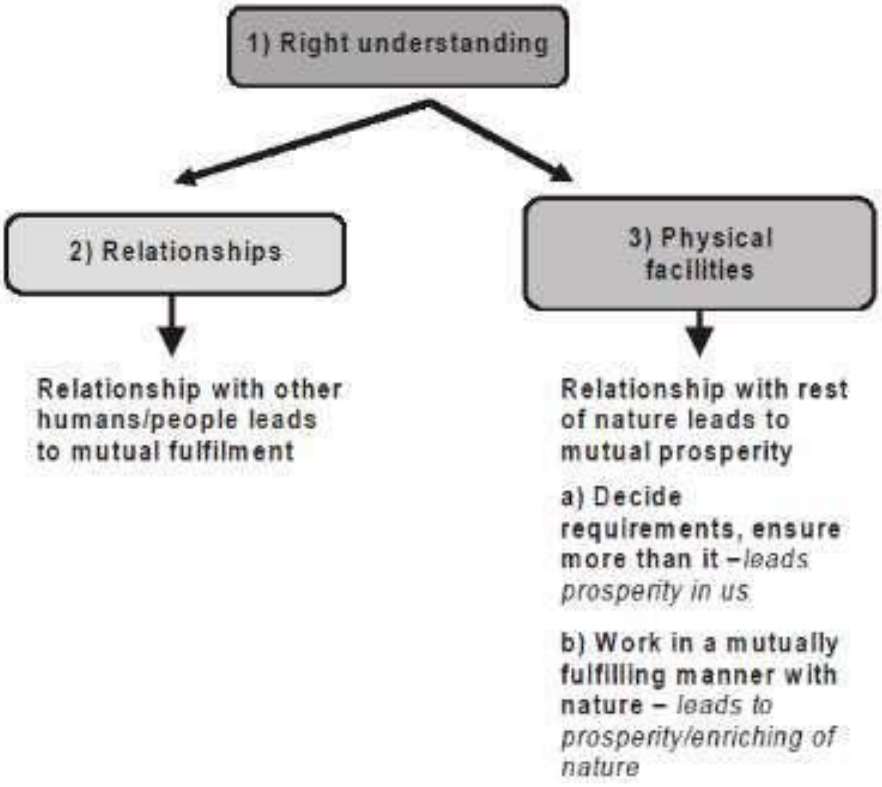

• If one has more than required number of physical facilities then a prosperous person thinks of right utilisation, nurturing the other using the extra physical facilities

Prevailing notions of Happiness and Prosperity: In the modern world, the desire for physical facilities has become unlimited. The physical facilities are no longer seen as objects fulfilling bodily needs but as a means of maximizing happiness. This unlimited desire for physical facilities has become anti-ecological and anti-people endangering human survival itself.

The false notions of happiness and Prosperity have affected human living at all four levels:

- **At the level of Individual:** Problems of depression, psychological disorders, suicides, stress, insecurity, psycho-somatic diseases, loneliness etc.
- **At the level of family:** Breaking of Joint families, mistrust, conflict between older and younger generations, insecurity in relationships, divorce, dowry tortures, family feuds, wasteful expenditures in family functions etc.
- **At the level of Society:** Terrorism, naxalism, communism, casteism, racial, ethnic struggles, wars between nations, genocide, nuclear genetic warfare.
- **At the level of Nature:** Global Warming, pollution, depletion of mineral resources, deforestation, loss of soil fertility.

The three basic requirements to ensure happiness and prosperity for human beings:

Right understanding + Relationship = Mutual fulfilment

Right understanding + Physical facilities = Mutual prosperity

1. **Right Understanding** helps to create harmony at all four levels of human living. Right Understanding enables us to:

   • Resolve the issues in human relationships

   • Be prosperous

   • Enrich Nature

   • Work out our requirements for physical facilities

   • Correctly distinguish between wealth and prosperity

   • Understand the harmony in Nature

2. Relationship
3. Physical facilities

Categories in which an Human lies or to be lied based on Understanding about different needs :

SVDD (*Sadhan Viheen Dukhi Daridra*)

- No Understanding about what is required at what time.

SSDD (*Sadhan Sampann Dukhi Daridra*)

- Due to understanding that Priority of Physical Facilities is higher then the Priority of Relationships.

SSSS (*Sadhan Sampann Sukhi Samridha*)

- Can be achieved only by working for Right Understanding and Relationship

Goal of Each & Every Human is to achieve the category : *SSSS*

Which is possible only by working with the Right Understanding based on Priority.

Final goal of Human aspiration is *to live in harmony with all four levels*

1. Myself

2. Family

3. Society

4. Nature/Existence (including space)

Wealth: Wealth is a physical thing. It means having money, or having a lot of physical facilities, or having both.

Prosperity Vs Wealth: Wealth means possessing a greater number of physical things while Prosperity is a feeling of possessing more than required physical facilities.

Following are the possibilities:

- A person may not possess required physical facilities, so he may not feel prosperous.
- A person may accumulate more and more wealth but still he may be deprived of the feeling of prosperity.
- A person may have required wealth and feel prosperous.

Multiple Choice Questions:

1. When we participate in the larger order, this participation at different levels is called as _____

A) Value B) Behaviour

C) Work D) None of the above

ANS: A

2. Which statement is not correct about value education?

A) It is in the form of Do's & Don'ts. B) It is universal.

C) It can be verified D) It is naturally acceptable.

ANS: A

3. It is the third level of living.

A) Family B) Society C) Individual D) Nature

ANS: B

4. Basic unit of human interaction is _____.

A) Family B) Society C) Group D) None of the above

ANS: A

5. Values are the outcome of realization and understanding, which are always _____.

A) Equilibrium B) Constant C) Definite D) Indefinite

ANS: C

6. By exploring our Svatva and living accordingly, we become.

A) Swatantra B) Partantra C) Both D) None

ANS: A

7. Universal, rational and verifiable are _____ of value education

a) Needs b) Basic Guidelines c) Outcomes d) None of the above

Answer: Option (b)

8. It is the third level of living.

a) Society b) Family c) Nature d) Individual

Answer: Option (c)

9. The second dimension of human being is _____.

a) Behavior b) Thought c) Work d) Realization

Answer: Option (d)

10. Our participation at different levels in the larger order is known as _____.

a) Behavior b) Values c) Efforts d) None of the above

Answer: Option (b)

11. It is the fourth level of living.

a) Family b) Society c) Individual d) Nature

Answer: Option (d)

12. A harmonious world is created by values at 4 levels. These are _____.

a) Home, Family, Society, Country

b) Individual, Family, Society, Universe

c) School, Home, Office, Temple

d) None of the above

Answer: Option (b)

13. The third dimension of human being is _____.

a) Behavior b) Realization c) Work d) Thought

Answer: Option (a)

14. It is the second level of living.

a) Family b) Individual c) Nature d) Society

Answer: Option (a)

15. Values form the basis for all our _____.

a) Thoughts b) Behaviour and Actions

c) Confusion and Contradiction d) Both 1st and 2nd options

Answer: Option (d)

16. Self-exploration uses two mechanisms – natural acceptance and _____.

a) Experiential validation b) Theoretical concepts

c) Logical thinking d) Reason

Answer: Option (a)

17. The result of self-exploration is _____.

a) Right understanding b) Realization

c) Excitement d) Both 1st and 2nd

Answer: Option (d)

18. Natural acceptance is?

a) Universal b) Definite c) Continuous d) All of the above

Answer: Option (d)

19. What I really want to be is my _____.

a) Natural Acceptance b) Sensation c) Preconditioning d) Influence

Answer: Option (a)

20. By exploring our Svatva and living accordingly, we become _____.

a) Swatantra b) Partantra c) Both d) None

Answer: Option (a)

21. Which of the following is not true about self-exploration?

a) It is a process of self-evolution through self-investigation.

b) It is a process of knowing oneself and through that knowing entire existence.

c) It is a process of knowing human conduct, human character and living accordingly.

d) It is a process of building up new belief systems.

Answer: Option (d)

22. The content of self-exploration includes _____.

a) Desires b) Program

c) Both 1st and 2nd d) None of the above

Answer: Option (c)

23. To live according to our natural acceptance is _____.

a) Svatva b) Swatantrata

c) Swarajya d) None of the above

Answer: Option (b)

24. Self-exploration establish a dialogue between _____.

a) "What I am" and "How others look at me"

b) "What I am" and "What I really want to be"

c) "What others are" and "What I am"

d) "What I really want to be" and "What others think of me"

Answer: Option (b)

25. Self-exploration is a process of dialogue between 'What you are' and _____.

a) What you want to be b) What other wants to be

c) What society wants to be d) All of the above

Answer: Option (a)

26. The feeling of having/producing more than required physical facility is _____.

a) Happiness b) Satisfaction c) Prosperity d) Success

Answer: Option (C)

27. Happiness is the state of _____.

a) Satisfaction b) Excitement c) Pleasure d) Harmony

Answer: Option (d)

28. Being happy _____ good luck and lot of external circumstances.

a) Depends on b) Means

c) Does not depends on d) None of the above

Answer: Option (d)

29. It is natural for _____ to slowly deteriorate.

a) Relationship b) Physical things/physical facilities

c) Happiness d) Feelings

Answer: Option (a)

30. To be in a state of liking is _____.

a) Stress b) Selfishness

c) Prosperity d) Happiness

Answer: Option (d)

31. Basic human aspirations are _____.

a) Happiness b) Prosperity

c) Education d) Both 1st and 2nd

Answer: Option (d)

32. To be in the state of _____ is unhappiness.

a) Liking b) Disliking

c) Prosperity d) None of the above

Answer: Option (b)

33. Continuous happiness and prosperity are the _____

a) Impractical thought

b) Impossible desires

c) Basic human aspirations

d) None of the above

Answer: Option (c)

34. Harmony within myself is known as _____.

a) Excitement

b) Happiness

c) Both

d) None of the above

Answer: Option (b)

35. Wealth means _____.

a) Physical facility that is rightfully earned, in accordance with right understanding of natural laws

b) Money only

c) Happiness

d) All of the above

Answer: Option (a)

36. The role of education sanskar is _____.

a) To transform human being from animal consciousness to human consciousness

b) To ensure right understanding in every individual

c) To ensure right feeling in every individual

d) To ensure availability of required physical facilities

e) All of the above

Answer: Option (d)

37. Giving weightage to relationships, to the inherent feelings and right understanding is _____.

a) Animal Consciousness

b) Human Consciousness

c) Both

d) None of the above

Answer: Option (b)

38. Largely physical facilities are _____ for animals

a) Necessary but not complete
b) Incomplete
c) Necessary as well as complete
d) Unnecessary

Answer: Option (c)

39. Which among the following is based on our natural acceptance?

a) SSDD

b) SSSS

c) SVDD

d) None of the above

Answer: Option (b)

40. Human development essentially means _____.

a) Transformation from animal consciousness to human consciousness

b) Earning more and more of physical facilities

c) Being the best

d) Making the country a superpower

Answer: Option (a)

41. Right understanding with physical facilities brings _____.

a) Deprivation
b) Mutual Prosperity
c) Mutual Fulfilment
d) None of the above

Answer: Option (b)

42. To which category a prosperous person belongs?

a) SVDD
b) SSDD
c) SSSS
d) None of the above

Answer: Option (c)

43. SVDD means _____.

a) Samarpan Vihin Daridra Dukhi

b) Suvidha Vihin Dukhi Daridra

c) Sahitya Vihin Dukhi Daridra

d) Sadhna Vihin Dukhi Daridra

Answer: Option (d)

44. When we have right understood with relationship it gives us mutual prosperity.

a) True b) False

Answer: Option (b)

45. SSSS means _____.

a) Samparpan Sampann Sukhi Samriddha

b) Sahitya Sampann Sukhi Samriddha

c) Suvidha Sampann Sukhi Samriddha

d) None of the above

Answer: Option (c)

46. _____ is our participation at different levels in the larger order.

Ans. (Value)

43. The participation of the human being is seen in two forms: _____ and _____.

Ans. (Behaviour) (Work)

44._____ are the outcome of _____ and (understanding) _____, which are always definite.

Ans. (Values) (Realization)

45. By exploring our svatva and living accordingly, we become (Svatantra) _____.

Ans. (Svatantra)

46. Giving weight age to physical facilities, to the maximization of sensory pleasures, to accumulation of wealth is called _____.

Ans. (Animal consciousness)

47._____ helps the human being to transform from _____ to ____

Ans. (Right understanding) (Animal consciousness) (human consciousness)

48. There can only be a _____ change in conscious units.

Ans. (Qualitative)

49._____ is the first level of living.

Ans. (Individual)

50. Which one explains about society

a. People living together, in a relationship of mutual fulfilment

b. People living together, but not in relationship of mutual fulfilment

c. People living separately, in opposition / struggle

d. None of the above

ANS: D

Module 2:

Harmony in the Human Being

Human Being as Co-existence of the Self and the Body

We are human beings; and we need to first understand ourselves. So, what is a human being? The proposal is that human being is coexistence of the ***Self*** and the ***Body***. Self is what we term as '***I'*** and Body is what we see with our eyes.

To understand the two realities, we can start by looking at the needs, activities and response of the Self and the Body given in the table 1.

		'I'	Body
Needs	→	Trust, Respect…	Food, Clothing…
	Needs are… →	Happiness (*sukha*)	Physical Facilities (*suvidhā*)
	In Time, needs are… →	Continuous	Temporary
	In Quantity, needs are… →	Qualitative (no quantity)	Quantitative (limited in quantity)
	Needs are fulfilled by… →	Right understanding and right feelings	Food, clothing, etc
Activities	*Activities are…* →	Desiring, Thinking, etc	Breathing, heart-beat, etc
	→	Knowing, Assuming, Recognizing, Fulfilling	Recognizing, Fulfilling
Type	*It is of type…* →	Conscious (non-material)	Physico-Chemical (material)

Table 1: *Human Being – Co-existence of the* ***Self*** or ***I*** *(Domain of Consciousness) and the Body (Domain of Material).*

1. The Needs of the Self and the Body

- The need of the Self is happiness (e.g. feeling of respect leading to happiness).
- The need of the Body is physical facility (e.g. food).
- All the needs related to the Self are continuous in time.
- All the needs related to the Body are required for a limited time.
- The other way to see the difference between the two is in terms of quantity and quality.
- The need for food is quantitative in nature. We can identify the quantity of the food needed to nurture our body. Same is the case with the need of clothes, shelter, etc.

- ❖ On the other hand, the feeling of respect, trust, etc. is not quantitative. We don't say, 'today I got half kg of respect' or 'two metres of trust'. These feelings are qualitative in nature.
- ❖ Needs fulfilment: The need for food is fulfilled by something physical. But when it comes to the need for respect, it is fulfilled by the feeling of respect.
- ❖ All the needs related to the Body are fulfilled by some physio-chemical things.
- ❖ All the needs related to the Self are in terms of feeling, and they are fulfilled by right understanding and right feeling.

2. The Activities of the Self and the Body:

- ❖ The Self has the activity of desire, thought and expectation which are continuous.
- ❖ On the other hand, any activity of the Body, like eating, walking, etc. is temporary in time.

3. The Response of the Self and the Body

- ❖ The response of the Body is based on recognizing and fulfilling.
- ❖ The response of the Self is based on knowing, assuming, recognizing and fulfilling.
- ❖ The recognition and fulfilment of the Body is definite, while that of Self is determined by the activity of assuming.
- ❖ As assumption changes, the recognition and fulfilment by the Self also changes.
- ❖ The conduct of the human being basically depends upon the response of the Self, as all decisions are made by the Self.
- ❖ Only with the assumptions set right, i.e. assuming based on knowing (which is definite), can recognising and fulfilling be set right; and only then, the conduct can become definite.
- ❖ All the problems of a human being are due to assumptions without knowing, and the solution lies in ensuring the activity of knowing. And this is possible only through education-sanskar.

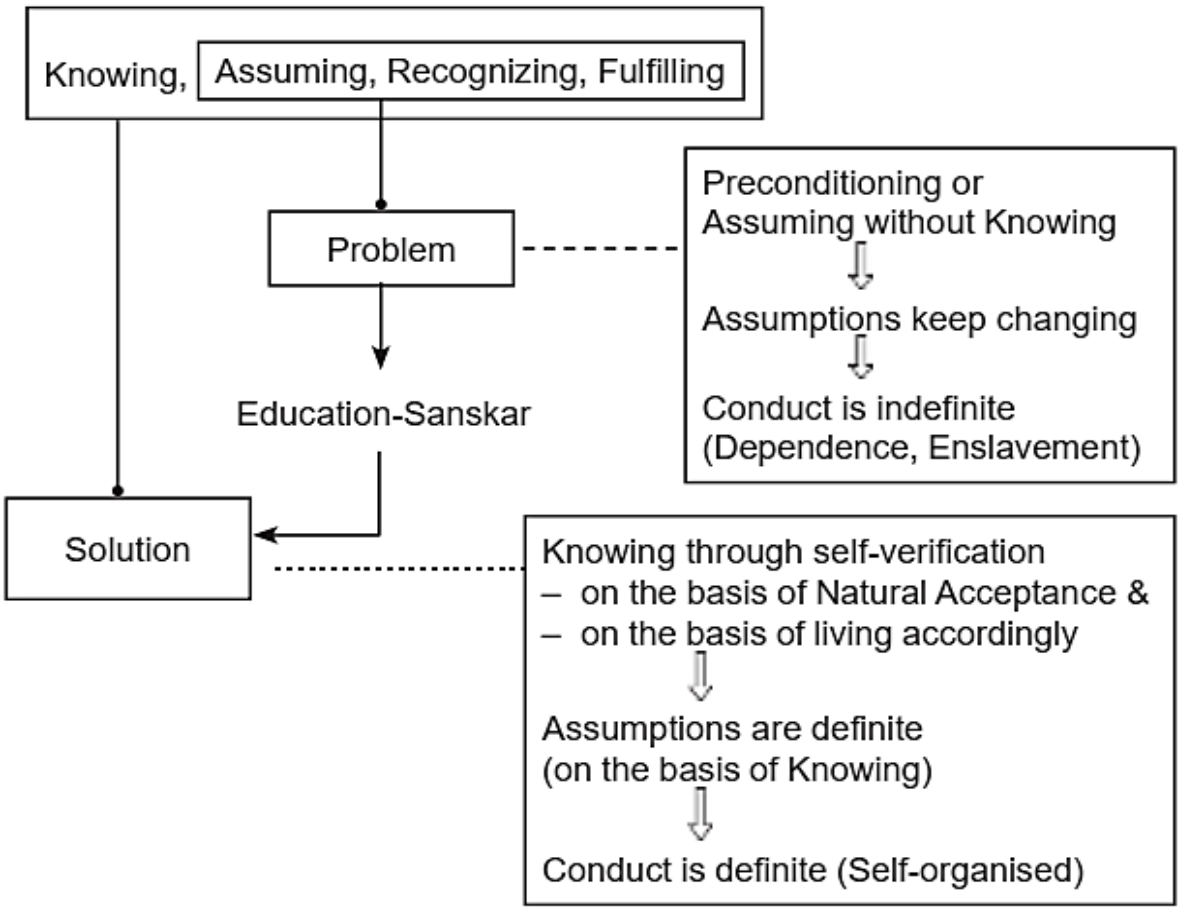

Fig. 7-2 Response Based on Knowing and Response Based on Assuming Without Knowing

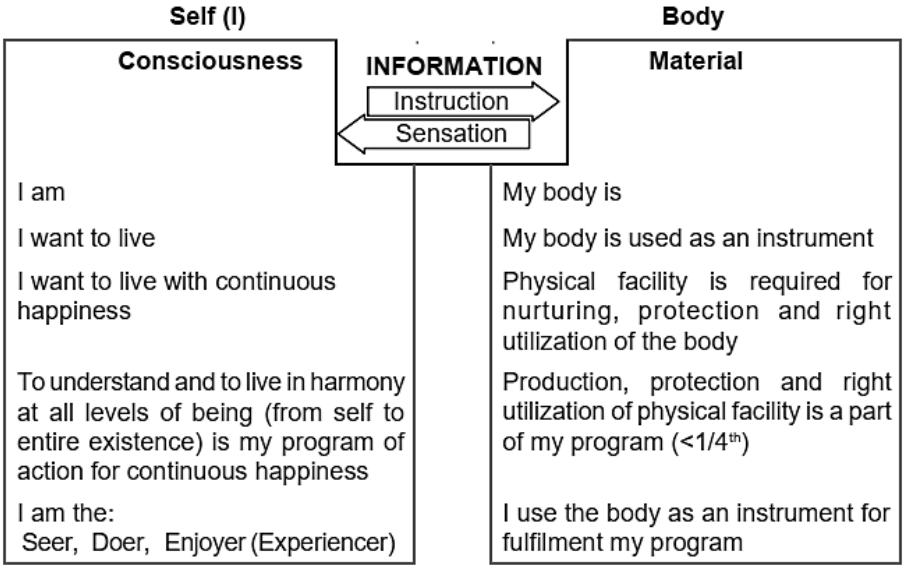

The Self as the Consciousness Entity, the Body as the Material Entity

The Self and the Body are two different types of reality. The Self is the domain of consciousness, which is characterised by the activity of knowing, assuming, recognising and fulfilling. The Body is the domain of material and it only has the activity of recognising and fulfilling.

Happiness is the need of the consciousness and it is fulfilled by right understanding and right feeling, which are activities of the consciousness itself. The Body is a material unit, its needs are material in nature and they are fulfilled by physio-chemical things.

To understand the human being, both the domain of consciousness as well as the domain of material needs to be understood. For human being to be fulfilled, both domains need to be fulfilled separately.

The Body as an Instrument of the Self

The Self (consciousness) is there and the Body (material) is there. There is a will to live with continuous happiness in the Self. It is the need of the Self and it is fulfilled by right understanding and right feeling. In order to live with continuous happiness, the programme of the Self is to understand harmony and to live in harmony at all levels of being– individual, family, society and nature/existence. In this process, the Body is used as an instrument. For nurturing, protecting and rightly utilizing this instrument, physical facility is required from time to time. A part of my (Self's) programme is to produce the required physical facility, and also to protect it and rightly utilise it. This production, protection and right utilization of physical facility is only a part of my full programme.

1. "Seer" means the one that sees / understands

Ex: If you are given something in your hand and you conclude that it is a pen, it is not your eyes that concluded this, it is you that concluded this. The Self sees via the eyes – the eyes don't see themselves.

 All the 5 senses are just the instrument that enable the Self to see something outside

 Just like you see outside, you can also see 'within', without using the body for sensation.

You can 'see' that you are feeling happy, getting angry.

 Thus, the Self 'sees' or understands, sometimes with the help of the body, sometimes without

the help of body

 The Body is used as an instrument

2. “Doer” means the one that does, who takes decision to do

 I am the one who decides. I decide what to do, what not to do...

 I may or may not use the body to do – what I think of is my decision. I do that thinking within myself (there is no role of the body in this)

 If required, the body is used to express my decision

 The Body is used as an instrument

3. “Enjoyer” means the one that experiences happiness / unhappiness

 I am the one that feels enthused or depressed. I am the one that feels angry or delighted...

 I am the enjoyer, the experiencer

 The Body is used as an instrument

Understanding Harmony in the Self

Harmony can be ensured among all the activities of the Self, resulting into a state of continuous happiness.

Activities of the Self

The activities of the Self can be seen in terms of desire, thought and expectation. Desire is the name given to the activity of imaging. You are making an image in the Self. Desire is in the form of an image which you have created within. Thought is the power for the activity of analysing based on comparing various possibilities to fulfil your desire. Expectation is the power for the activity of selecting based on tasting.

Activities of the Self are Continuous

These powers of desire, thought and expectation are inexhaustible, and the activities are continuous. The activities of imaging, analysing-comparing and selecting-tasting are always going on, whether we are aware of them or not.

These Activities Together Constitute Imagination

These activities are together called imagination. We may not immediately be able to observe our desire, thought and expectation distinctly, but it may be easier to see that something is going on within. One imagination or the other is going on in us all the time.

Happiness and unhappiness depend on the state of imagination. If your imagination is in harmony with your natural acceptance, you are in a state of happiness. When it is in

contradiction with your natural acceptance, you are in a state of unhappiness. Imagination is expressed to the world outside, in terms of behaviour with human being and work with the rest of nature.

We have also referred to imagination as “what I am” and the natural acceptance as “what I really want to be”.

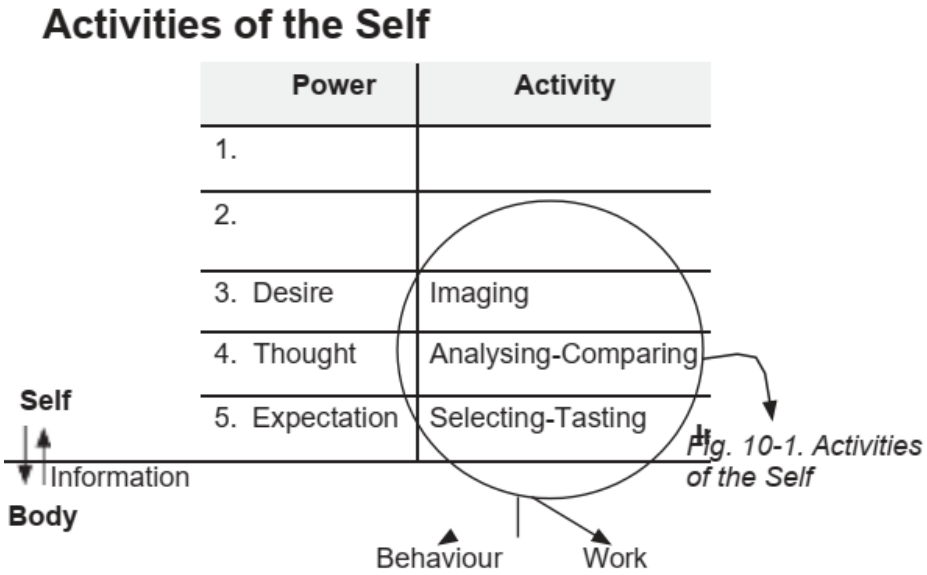

Fig. 10-1. Activities of the Self

State of Imagination

Once you start looking at your imagination, you will be able to find out the state of your imagination. Your imagination could be well organised, in harmony or it could be a random mixture of harmony and contradiction.

Possible Sources of Imagination

There are three possible sources of motivation for imagination:

1. Preconditioning
2. Sensation
3. Natural Acceptance

A dominant source of imagination is preconditioning. Preconditioning means the beliefs, notions, norms, ideas, views, dictums, goals, etc. prevailing in the family, in the society which we have assumed without knowing. They may influence our imagination.

Another major source of our desire, our imagination is the sensation. Sensation is the information we get from the Body through the five sense organs – of sound, touch, sight, taste and smell.

The third source of imagination is our natural acceptance. It can also be referred to as the inner voice or conscience. Self-verification on the basis of our natural acceptance can be the third possible source. It may or may not be the predominant source of motivation currently, but it can be the real source for deciding our desire, our imagination.

Harmony of the Self with the Body

The Body is a wonderful self-organised system. It has so many parts. Each part coexists in harmony with every other part. The eyes are well connected to the brain; the mouth, the stomach and the whole digestive system is synchronized and so it is for every organ, every cell of the Body – and you have to do nothing to make these connections or to synchronize the various parts or to deal with every cell.

Harmony of the Self with the Body: Self-regulation and Health

The Body is an instrument of the Self. The responsibility of the Self towards the Body is in terms of nurturing, protecting and rightly utilizing the Body. Nurturing the Body is by providing appropriate air, water, food, sunlight, etc. Protection is to ensure the continuity of the body which includes safeguarding from unfavourable conditions. Right utilization would mean using the Body for the purpose of the Self. This feeling of responsibility towards the Body is called as the feeling of self-regulation, and a natural outcome of it is health.

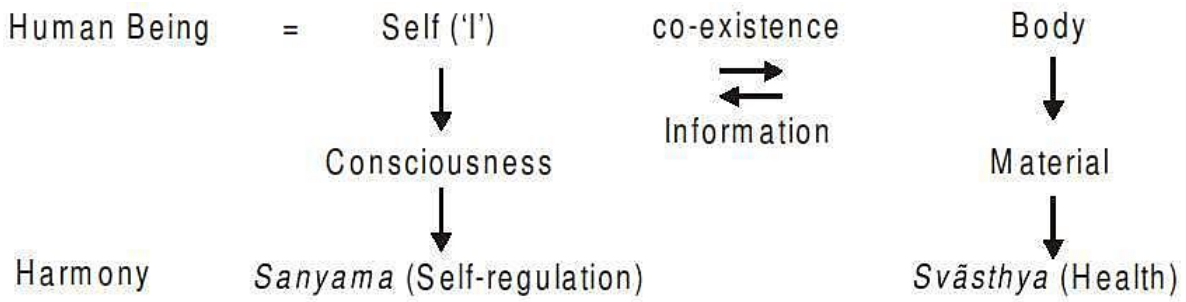

Feeling of self-regulation = the feeling of responsibility in the self towards the Body – for nurturing, protection and right utilization of the Body.

Nurturing the Body

Nurturing means providing the necessary inputs to the Body. The right inputs nurture the Body, without disturbing its harmony.

The programme for nurturing and maintaining health of the Body includes the following:

1a. Intake	1b. Routine
2a. Physical Labour	2b. Exercise
3a. Balancing internal	3b. Balancing breathing of body external organs of body
4a. Medicine	4b. Treatment

Human Being
=
Self ('I')
co-existence
Body
Information
Consciousness
Material
Harmony
Sanyama (Self-regulation)
Svãsthya (Health)

UNIT 2 MCQ

1. With the help of the Body, _____ explores and interact with rest of the nature.

a) Physical Facilities
b) Self (I)
c) Money
d) Relationship

Answer: Option (b)

2. The _____ is conscious in nature, while _____ is Physico-chemical

a) Body, Self (I)
b) Money, Food
c) Self (I), Body
d) Money, Thoughts

Answer: Option (c)

3. Recognition and fulfilment in _____ entities is always definite.

a) Material
b) Physical
c) Both 1st and 2nd
d) None of the above

Answer: Option (c)

4. The needs of _____ are qualitative in nature and we want them continuously.

a) Self (I)
b) Body
c) Both Self (I) and Body
d) None of the above

Answer: Option (a)

5. Clothing, nourishment etc. are the needs of _____.

a) Self (I)
b) Body
c) Both Self (I) and Body
d) None of the above

Answer: Option (b)

6. Need of Self (I) is _____.

a) Happiness
b) Excitement
c) Both Happiness and Excitement
d) Continuous Happiness

Answer: Option (d)

7. Human being is _____.

a) Self (I)
b) Body
c) Co-existence of Self (I) and Body
d) None of the above

Answer: Option (c)

8. Knowing means we have the _____.

a) Right Understanding
b) Confusions
c) Preconditioning
d) All of the above

Answer: Option (a)

9. Right feeling within Self (I) is _____.

a) Definite
b) Continuous
c) Unconditional
d) All of the above

Answer: Option (d)

10. The needs of Self (I) are _____ in nature and we want them continuously.

a) Quantitative
b) Temporary
c) Qualitative
d) None of the above

Answer: Option (c)

11. Need of the body with reference to time are

A. Continuous
B. Temporary
C. Both (A) and (B)
D. None of the above

ANS: B

12. Human beings needs

A. Sukh
B. Suvidha
C. Both (A) and (B)
D. Excitement

ANS: C

13. If our imagination is based on Pre-conditioning and Sensation, we are in the state of ____

A. Paratantra
B. Swatantrata
C. Natural Acceptance
D. None of the above

ANS: A

14. The Harmony in the Self (I) can be ensured by _____.

A. Thought and Expectation
B. Desire and Thought
C. Realization and Understanding
D. None of the above

ANS: C

15. Nurturing on the Body depends upon _____.

A. Ingestion

B. Digestion

C. Excretion

D. All of the above

ANS: D

16. Sensation is related to _____.

A. Body

B. Self 'I'

C. Both (A) and (B)

D. None of the above

ANS: A

17. The feeling of Responsibility to ensure health of body is related with _____.

a) Guidance

b) Proper Upkeep

c) Affection

d) Self –Regulation

Answer: Option (d)

18. Harmony should be maintained in _____.

a) Between Body and Life.

b) Between Self and Society

c) Between Life and Environment

d) All of the above

Answer: Option (d)

19. The feeling of responsibility for nurturing, protection and right utilizing the body is _____.

a) Sanyam

b) Swasthya

c) Both 1st and 2nd

d) None of the above

Answer: Option (a)

20. No physical facility is produced by _____.

a) Proper Upkeep

b) Exercise

c) Treatment

d) All of the above

Answer: Option (d)

21. What is not the indicator of good health in Self and Body?

a) Proper functioning of organ systems

b) Feeling of jealously, competition, anger for others

c) Feeling of happiness and prosperity

d) Feeling of self-regulation towards the body

Answer: Option (b)

22. _____ ensures Swasthya.

a) Patience

b) Popularity

c) Sanyam

d) Money

Answer: Option (c)

23. Proper upkeep means _____.

a) Vihar

b) Daily Routine

c) Proper Rest

d) All of the above

Answer: Option (d)

24. Which of the following pair is not correctly matched?

a) Medicine – Treatment

b) Asan – Pranayam

c) Intake – Proper Upkeep

d) Labour – Asan

Answer: Option (d)

25. For being healthy, what area we need to work on _____.

a) Intake and Daily Routine (Lifestyle)

b) Labor and Exercise

c) Posture of Body and Regulated Breathing

d) All of the above

Answer: Option (d)

26. _____ is done with the help of proper food, water and air.

a) Nourishment of the body

b) Right Utilization of the body

c) Exploitation of the body

d) Protection of the body

Answer: Option (a)

27. Where there is harmony among the parts of the body, it is known as _____.

a) Sanyam

b) Swasthya

c) Both 1st and 2nd

d) None of the above

Answer: Option (b)

28. _____ helps in balancing/regulating the breathing of the body.

a) Labor
b) Pranayam
c) Medicine
d) Asan

Answer: Option (b)

29. Labor is done for _____ of physical facility.

a) Protection
b) Nourishment
c) Exploitation
d) Production

Answer: Option (d)

30. Harmony should be maintained in _____.

a) Between Body and Life.
b) Between Self and Society
c) Between Life and Environment
d) All of the above

Answer: Option (d)

35. Food must be nutritious, digestive, excretory and _____.

a) None of the above
b) Looks Attractive
c) Smell Good
d) Tasty

Answer: Option (d)

36. The amount of physical facilities required for nurturing, protection, and right utilization of body is _____.

a) Unlimited b) Uncertain c) Limited d) Insignificant

Answer: Option (c)

37. The feeling of responsibility for nurturing, protection and right utilizing the body is _____.

a) Sanyam
b) Swasthya
c) Both 1st and 2nd
d) None of the above

Answer: Option (a)

38. Proper upkeep means _____.

a) Vihar
b) Daily Routine
c) Proper Rest
d) All of the above

Answer: Option (d)

Module 3

Harmony in the Family and Society: (3 hours) Harmony in the Family – the Basic Unit of Human Interaction, 'Trust' – the Foundational Value in Relationship, 'Respect' – as the Right Evaluation, Other Feelings, Justice in Human-to Human Relationship, Understanding Harmony in the Society, Vision for the Universal Human Order

"The family is the basic unit or building block of human organisation"

• The major issue in the family is relationship… fulfilment in relationship

• To live in relationship, for fulfilment in relationship, it is essential to understand relationship

• Without understanding relationship, it isn't possible to fulfil relationship… e.g. Not speaking to each other… for days… opposition, divorce…

These are the four aspects to understand about relationship

1. Relationship is – between oneself (I1) and another self (I2): In a family, we do not create relationships. Instead, we are embedded into relationships that are already there and all that we need to do is to recognize them and understand them.

2. There are feelings in relationship – in one self (I1) for the other self (I2): In any relationship, it is the person's Self (I1) that is related to the other person's Self (I2). The body is only a means to express our relationship. For example, in a mother and a child, it is the Self of the mother and the Self of the child who feel connected. Their bodies are incapable of understanding or having feelings.

3. These feelings can be recognized: The feelings in a relationship between "I" and "I" such as Trust, Respect, Affection, Care, Guidance, Reverence, Glory, Gratitude &Love etc., can be identified with clarity and so they are definite. These feelings are the values which characterize any relationship

4. Their fulfilment, evaluation leads to mutual happiness: Once we recognize the values essential for any relationship, we start working and behaving according to these feelings. We begin evaluating ours' and others' feelings in the relationship. Thus, living with these values lead to mutual fulfilment and happiness in all our relationships.

Feelings (Values) in relationship:

1. Trust (Visvasa): The feeling of Trust in relationship is defined as: "To be assured that each human being inherently wants oneself and the other to be happy and prosperous. It is considered as the **foundational value** in Relationship.

There are two aspects in trust:

I. Intention (wanting to – which is our natural acceptance)

II. Competence (being able to do)

Both intention and competence are the aspects of trust. Intention is what one aspires for (our natural acceptance) and competence is the ability to fulfil the aspiration. In intention every human being wants to do what is right, only the competence may be lacking which needs to be developed through proper understanding and practice. With trust on intention, I feel related to the other, and with that at the base, I make a programme based on our current mutual competence. I make effort to assure the other. Trust is the starting point of relationship, of mutual development. But what we are doing today is that when we are judging ourself we are judging on the basis of our intention, whereas, when we are judging the other we are judging him on the basis of his competence.

Intention vs Competence:

Anger arises, when we are not able to differentiate between the intention and competence of the other. Based on lack of competence of the other, we doubt over their intention. Once, we have a doubt on the intention of the other, then instead of relating to the other, we feel in opposition to the other. Thus, any small unfavourable incidence may lead to irritation or even anger, particularly when our desire does not get fulfilled and we perceive that it is due to the other.

If I understand the human being correctly, then I am able to see that the other is a human being like me (self and body). The other self has the intention, i.e. natural acceptance (to be happy and make other happy) just like me. The other may be lacking in competence to fulfil their intention, just like I am lacking in competence. If I can see that the other has the same intention as me, but lacks competence, then instead of getting angry, I re-examine my desire/expectation and action:

- ♣ Is my expectation right or not?
- ♣ Is the program to fulfil the desire is correct or not?

♣ Have I developed the necessary competence myself?

♣ What effort have I made to help the other in improving their competence?

In this way, we can reinforce the need for understanding

• It results into our own fulfilment (happiness) first and then the fulfilment of the other

• It also results into the resolution of our concerns

2. Respect (Sammãna): Respect means "Right Evaluation", to be evaluated as I am. The sense of individuality is prime object towards respect. Once we realized that we are as an individual then only we can see our self-different from others.

When we evaluate the human being on the basis of Self, we are able to see that:

Our purpose is the same – As I have a natural acceptance to live with continuous happiness and prosperity, it is same with the other. So, on the basis of our natural acceptance, we have the same purpose.

Our programme is same – As my programme to achieve continuous happiness and prosperity is to understand the harmony and live in harmony at all levels of my being (from human being to the entire existence), it is same with the other. In that sense, our programme to fulfil our purpose is also same.

iii. Our potential is same – As I am endowed with natural acceptance and the activities of desire, thought and expectation are going on continuously in me, it is the same with the other. So, our potential is also same.

Usually however, we make mistakes in our evaluation in the following three ways.

Over Evaluation (adhi-mülyana) – To evaluate more than what it is.

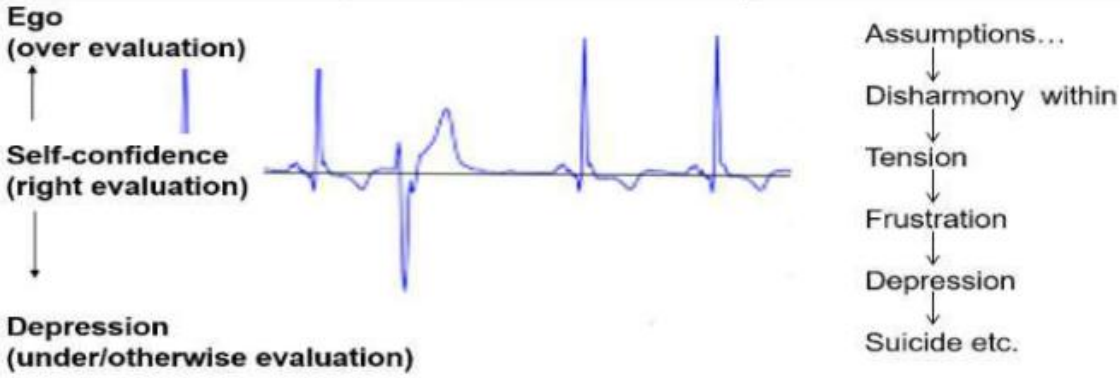

Under Evaluation (ava-mülyana) – To evaluate less than what it is.

Otherwise Evaluation (a-mülyana) – To evaluate otherwise than what it is.

- **Example of over evaluation:** You are sitting at home and there are guests around. Your father says 'my son is the greatest scholar in India!' Check for yourself: do you feel comfortable, or do you feel uncomfortable?
- **Example of under evaluation:** You are still at home, but this time your father says 'My son is a good for nothing. He must be the laziest person in all of India!' You obviously feel uncomfortable; you don't find this acceptable.

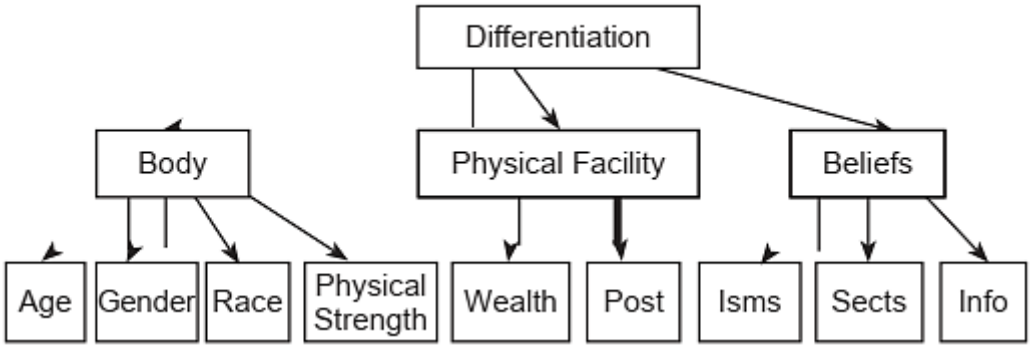

- **Example of 'otherwise' evaluation:** You are at home, and there are guests around, and your father says, 'You donkey! Can't you even understand this much?' You feel offended by this This is evaluating you otherwise, as you are a human being and not something else.

Right Evaluation	Over Evaluation	Under / Otherwise Evaluation
Self-confidence	**Ego**	**Depression**
I am self referential (self organized)	The other is my reference (enslaved)	The other is my reference (enslaved)
Definite Conduct	Indefinite Conduct	Indefinite Conduct

Disrespect Arising out of Differentiation Leading to Discrimination

We are differentiating in the name of respect in the aspects of:

A). Body:

I. Sex/gender: We ignore the fact that being male or female is an attribute of the body, and not an attribute at the level of 'I'. And differentiate in giving respect on the basis of gender called male and females. In many countries, people even prefer a male child to a female child and in some other societies, the other way round.

***II. Race*:** If the person is of the same race as oneself, then we treat them differently. For example, we differentiate on the basis of skin colour – white, brown, black etc. or on

the basis of whether the person is of Aryan race, Mongolian race etc. or on the basis of caste. Again here, we don't do the evaluation on the basis of 'I', but on the basis of the body.

III. ***Age:*** We have notions such as 'one must respect elders.' There is no such notion as respect youngsters. Here, we see that we are again evaluating at the level of the body age is related to the body, and not to 'I'.

IV. Physical strength: If someone is stronger, we again treat him/her differently. This is again at the level of the body. In fact, we think that we are respecting the other while it is fear; the fear that if we do not treat them like this, we will be harmed.

B) On the basis of physical facilities

I. Wealth: We differentiate people because some have wealth than others. What we term as a "rich person" gets idolized. We don't even bother to find out whether such people are feeling prosperous, or if they just have wealth. This way, we are over-evaluating physical facilities first, which are just meant to fulfil the needs of the body, and then on this basis, we are wrongly identifying our relationship.

II. Post: We try to respect on the basis of a person's position. The post is wrongly evaluated as the mark of a person's excellence and differentiation sets in. The post is considered important either on the basis that it gives more physical facilities or on the basis that certain positions are assumed to be important. In our education, we are trained directly or indirectly to earn posts for us to fetch respect

C) On the basis of beliefs

I. 'Isms'**:** 'Ism' means any belief in terms of a 'thought-system' that we have, or that we have adopted. There are also many modern 'isms' such as capitalism, socialism, communism,

etc. The people following these sets of beliefs are called capitalists, socialists, communists, and so on. The people that have adopted them or are following them have been exposed to them since childhood. Believing theirs to be the right belief. However, all beliefs, as we have seen are at the level of desires, thoughts and expectations (selections) in 'I'. There is no definiteness at this level, and hence, this becomes a cause for differentiation.

II. Sects**:** People of one sect only consider those with a similar belief system to be their 'own' and worthy of respect. Following a particular tradition, or what we call as religion, becomes the basis of respect and disrespect in relationship.

The Problems Faced Due to Differentiation (Disrespect) in Relationships:

• **Differentiation based on sex/gender:** Issue of women's rights, and women protesting and demanding for equality in education, in jobs, and in peoples' representation. People are insecure and afraid of one another based on their gender.

• **Differentiation based on race:** there are many movements and protect against racial discrimination and demands for equality, racial attacks, movements against cast discrimination have people living in fear of such racism, racist attacks, casteism and discrimination.

• **Differentiation based on age:** Protests and movements demanding for equal rights for children on the one hand and for rights for elderly people on the other, generation gap

• **Differentiation based on wealth:** Class struggle and movements to do away with class differentiation. Many people suffering from a lack of self-esteem and some even committing suicide,

• **Differentiation based on post:** Protests against high handed government officials. At the level of the individual, leads to depression, etc.

• **Differentiation based on 'isms:** Fights, turmoil, terrorism and war, people converting from one Ism to another in order to be able to get more respect.

• **Differentiation based on sects:** Countless religions and sects and each sect has its own movement to ensure that there is no discrimination against people of their belief and demands for special provisions in jobs and in education.

	Differentiation (Disrespect)	**Respect**
1	Respect means Right Evaluation	Disrespect means Wrong Evaluation
2	During Disrespect evaluation follows- Over or Under or Otherwise evaluation	During respect evaluation follows only Right Evaluation
3	If we are disrespected, we feel uncomfortable	If we are Respected, we feel comfortable
4	Feeling of Respect is Naturally acceptable to us	Feeling of Disrespect is unacceptable to us
5	Respect act as a bridge in relationships	Disrespect causes problems in relationships

3. Affection (Sneha): Affection is the feeling of being related to the other. Affection comes when I recognize that we both want to make each other happy and both of us are similar. Then for the first time, I feel that I am related to the other that the other is a relative of mine. This feeling is called affection.

This feeling of affection comes only if Trust and Respect are already ensured. Without Trust and Respect, you feel the other is trying to make you unhappy, does not wish well for you and hence you can never feel Affection for him/her. You always see the other as being in opposition. And that is why today in the family, you find that people have been living together for years and years and still don't feel related to each other, because that basic Trust and Respect are missing. Today, there is a crisis in the state of our relationships. We are unable to accept the other as our relative, even members of our family. When we examine this deeply, we find that we have started to doubt their intentions. We wrongly feel that they are not for my happiness and prosperity. As a result of this lack of trust on intention, we are unable to rightly evaluate ours' and the other's competence and are hence not able to work towards improving competence in ourselves and in our family. Instead, we bring an attitude of blame and try and rest the responsibility on the other. When our relationships suffer, we suffer and the other suffers. No one feels happy when he/she has to struggle, to fight or live with a feeling of opposition.

There is a lot of talk of **competition** today. You will find that competition results when there is lack of affection. When there is affection, I help the other grow. When I miss this feeling, I try to beat the other, act as an opponent

4.Care (Mamatã): The feeling of Care is the feeling to nurture and protect the body of our relative. We understand a human being as a co-existence of the Self ('I') and the Body, and the Body is an instrument of 'I'. Based on this understanding, we take the responsibility of nurturing and protecting the body of our relative.

5. Guidance (Vãtsalya): The feeling of ensuring right understanding and feelings in the other (my relative) is called Guidance. We understand the need of our Self ('I') for right understanding and feelings. We also understand that the other is similar to me in his/her faculty of natural acceptance, desire of wanting continuous happiness and the program of living in harmony at all the four levels. The other is also similar to me in the potential of Desire, Thought and Expectation. Right Understanding and feelings is also a need of the other and the other is related to me. As a result, I have the responsibility to help the other. Based upon this, I am able to recognize this feeling of ensuring Right Understanding and feelings in my relative. This is called Guidance.

6. Reverence (Shraddhã): The feeling of acceptance of excellence in the other is called reverence. We understand that we aspire for continuous happiness and to realize it, we have to understand harmony at all the levels of our living, and live accordingly. When we see that the other has achieved this Excellence-which means to understand and to live in harmony at all levels of living ensuring continuity of happiness, we have a feeling of reverence for him/her. This feeling of accepting the excellence in the other is called reverence.

7. Glory (Gaurava): Glory is the feeling for someone who has made efforts for Excellence. Each one of us wants to live with continuous happiness and prosperity. Each one of us has the similar faculty of natural acceptance, has the same goal and program and we have the same potential to realize this. We find that there have been people in the history, or even around us, who are investing their time, energy and their belongings to achieve excellence (to understand and to live in harmony at all levels of living ensuring continuity of happiness), to make others excellent. This gives us a feeling of glory for them.

8. Gratitude (Kritagyatã): Gratitude is the feeling of acceptance for those who have made effort for my excellence. We understand that each one of us has the same goal of continuous happiness and prosperity. Each one of us has to work towards increasing our competence to realize our intention and in this process, we are helped and guided by others that have the right understanding. When we understand this and begin to recognize the feeling in ourselves, we feel gratitude in our relationship. Today, we find that generally what we call as 'gratitude' is a feeling coming out of assistance at the level of physical facilities. This feeling is short lived since the physical facility and the sensation we get from it, is also short lived. But gratitude coming out of someone doing something for my right understanding is permanent since the happiness we get from the right understanding is permanent.

9. Love (Prema): The feeling of being related to all is love. This feeling or value is also called the **complete value (Pürna mülya)**, since this is the feeling of relatedness to all human beings.

- It starts with identifying that one is related to the other human being (the feeling of affection) and it slowly expands to the feeling of being related to all human beings.
- The feeling of love leads to an Undivided Society, it starts from a family and slowly expands to the world family. Every human being has natural acceptance for relatedness up to the world

family in the form of love.

- We start with trust, which becomes foundation for being related to one (Affection), and we

reach the state of being related to everyone – Love.

• It is this feeling of Love, which lays down the basis of an Undivided Society.

With Preconditioning:

• "I am special, unique, different from the other"

• Leads to differentiation

Without Preconditioning:

1. Purpose

• I want to live with continuous happiness & prosperity

• The other also wants to live with continuous happiness & prosperity

Our purpose is same (based on Natural Acceptance)

2. Program

• My program is to understand and to live in harmony at all levels of being

• The program of the other is also to understand and to live in harmony at all levels of being (Individual, family, society and nature/existence)

Our program is same

3. Potential

• Desire, Thought & Expectation is continuous in me.

• I am endowed with Natural Acceptance

• Desire, Thought & Expectation is continuous in the other.

• The other is also endowed with Natural Acceptance

Our potential is same

Understanding Harmony in The Society

Comprehensive human Goal:

1. Right understanding is necessary for the human being, for all human beings. When one does not have the right understanding, one remains disturbed and also acts in a manner so as to create disharmony with other human being as well as with rest of nature.

2. Prosperity is needed in every family. Prosperity in the family means that the family is able to identify its needs and is able to produce/achieve more than its requirements.

3. Trust in society means every member of society feels related to everyone else and therefore there is trust and fearlessness.

4. Co-existence in nature means there is a relationship and complementarity among all the entities in nature including human beings. All the above four are the basic requirements to ensure happiness and prosperity at all levels and achieving all those should be the comprehensive human goal.

Programs Needed to Achieve the Comprehensive Human Goal (The Five Dimensions of Human Endeavour or **Five Dimensions of Universal Human Order):** In the light of the comprehensive human goal, let us visualize how the following five salient dimensions of human endeavour are to be shaped and implemented in society. It will be necessary to develop appropriate systems and programs to cater to the above goal in order to ensure human welfare.

1. Education – Right Living (Siksha – Sanskar)

♣ Education = To understand Harmony at all four levels of living

♣ Right Living = Commitment and Preparedness to live in harmony at all four levels of living

♣ leads to Right Understanding, Right Feelings and an all-encompassing solution called **Samadhana.**

It is important to realize that understanding of harmony is accompanied by learning to live in harmony at all the levels and doing things that ensure harmony at all the levels. The competence gained from understanding enables us to live in harmony. We have to ensure the availability and continuity of Education-Right Living in our society. This dimension of society works to ensure 'Right Understanding' and 'Right Feelings' or 'All encompassing' Solution called 'samãdhãna*'* in every individual and ensures that our succeeding generations have both the content and the environment available to work towards achieving their goal of continuous happiness and prosperity.Thisis the goal and objective of education

2. Health – Self regulation (Svãsthya - Sanyama):

♣ Health = Harmony among the parts of the body and having a fit body which acts according to the needs of the Self "I"

♣ Self-Regulation = A feeling of responsibility for nurturing, protecting and rightly utilizing the body.

♣ Self-regulation is the basis of Health.

♣ leads to Prosperity

3. Justice-Preservation (Nyãya-Surakshã):

♣ Justice = 'Human-Human relation' – its recognition, fulfilment, right evaluation = mutual Happiness

♣ Preservation = 'Human – Rest of nature' relation - its recognition, fulfilment, right evaluation
= Enrichment, Protection, Right Utilization of nature.
= mutual Prosperity

♣ leads to Fearlessness and Co-existence

Preservation involves ensuring the following three aspects:

1. **Enrichment** – (I cultivate wheat; this enriches wheat as the quantity grows)
2. **Protection** – (I protect it so that it is fit to eat)
3. **Right Utilization** – (I use it for the nurturing of the body and do not let it get wasted)

4. Production-Work (Utpãdana-Kãrya):

♣ Work – Labour that human does on the rest of nature.

♣ Production - Things obtained out of work

♣ leads to Prosperity and Co-existence

There are two important questions that come to mind when we talk of production-work:

i. What to produce: The decision of what to produce depends on the right identification of needs. For this, we have to identify the physical needs of the body, i.e. what is needed for the nourishment, protection and right utilization of the body. When we look into this, we can see that there is a need for: food, clothing, shelter, and various kinds of instruments (ex: means of transport, communication, remote viewing of images, etc.) for the right utilization of the body.

ii. How to produce: When we come to the question of how to produce, we are referring to the technology or systems we use for production. On understanding of the harmony at all the levels of our living, it becomes evident that there is an inherent balance, a harmony in nature. So, it is only natural that any production system we design or implement is within the framework that is present in nature, i.e. it does not violate the framework/harmony in nature. When we look at the way in which nature is organized, the following becomes apparent

a. The systems are cyclic and not open ended.

b. The systems are mutually fulfilling and mutually enriching.

For example, When a seed is planted in soil and water is added, it grows to be a tree and in turn, bears leaves, flowers and fruits. The fruits ripen, leaves mature and fall to the ground and enrich the soil forming manure by decaying. Seeds are scattered from the fruit into the soil and once again these fruits form a plant and bear fruit. This way the soil gets enriched, seeds are multiplied and tree grows. Everything is regenerated. This is nature's way of enriching the soil. We can see mutual enrichment in nature in this way. This process is also cyclic. It is not that the seed grows once, and then the whole process is over. This process continues. We can thus see that the processes in nature are both cyclic and enriching. Numerous such examples can be

taken, between plants and soil, within plants, between plants and birds, and animals, etc. There is an inherent balance, in the species, in the entire cycle

5. Exchange-Storage (Vinimaya-Kosa)

♣ Exchange = Exchanging of produce for mutual fulfilment and not for madness of profit

♣ Storage = Storing of produce after the fulfillment of needs with a view of right utilization in future and not for hoarding.

♣ leads to Prosperity and Fearlessness

Each family has the capacity to produce more than what it needs for itself. Say, if a family produces wheat, it can produce for ten families together. The other family can similarly produce cotton for all its neighbourhood. Summing up all the needs in the society, the families are capable to produce more than the need. And then we can exchange things. This exchange can take place in the form of commodities themselves, or through currency, wherever required.

When we produce more than required, we exchange for our current needs and store for future needs. This storage is to be used when the production is not taking place, or some relative of ours needs it and not hoarding.

¬**Undivided Society (Akhanda Samãja) –** It is the feeling of being related to every human being.

¬**Universal Human Order (Sãrvabhauma Vyavasthã**) - Feeling of being related to every unit including human beings and other entities of nature. We are able to see that we are related to every unit in nature and ensure mutual fulfilment in that relationship. On the bases of understanding of harmony, we get the notion of an undivided society and universal human order. The universal human order will comprise of the five dimensions of human endeavour towards a fragmented society. The steps of organization from family to world family, each anchored in right understanding will integrate in the following way:

¬Family => family cluster => village / community => village cluster => => => world family

Svatva: Swatva means innateness of self – the natural acceptance of harmony. The word "innate" is defined as originating in or derived from the mind. It is present in an individual by birth. When we identify our innateness, we realize the difference between what we are, and we really want to be.

Swatantrata: Swatantrata means being self- organized – being in harmony with oneself. When we identify our innateness, we establish a dialogue with our conscience, and it enables us to become self-organized, i.e. we attain harmony in ourself. This is called swatantrata.

Swarajya: Swarajya means self-expression, self- extension – living in harmony with others. When we identify our innateness, what we really what to be and establish a dialogue within, it enables us to become self-organized, i.e. we attain harmony in ourself. When we start living with this harmony, it starts expressing itself through our harmonious behaviour towards others and towards our work, and it naturally leads to a healthy participation with the surroundings. This is called swarajya.

Thus, when we start exploring our svatva, in the process of self-verification and living accordingly, we are attaining svatantrata and svarajya. Exploring our svatva at different levels of our living helps us in getting rid of our preconceived notions, our dilemmas, contradictions and compulsions, either external or internal. The more, we attain swatantrata or the self-organized state, the more we can live in harmony with others, and we can also help others attain this state. This leads to our participation in swarajya.

The effort towards ensuring orderliness in the society is possible and is sustained by ensuring orderliness in ourselves. Every mechanism to bring order in the society needs to be based on this. This is an important implication of right understanding when we go to make policies for nations and the world.

The Basis of Undivided Society: The feelings (9 Values) of being related to every human being leads to our participation in an undivided society. By living in relationship in the family, we get the occasion to gain the assurance that the other person is an aid to me and not a hindrance. The family is a laboratory of sorts, in which we live our understanding and relationship. With the understanding of values in human relationship, we are able to recognize the connectedness with every individual correctly and fulfil it. On getting assured, it becomes easy to see that society is an extension of family and that it is possible to live in harmony with every human being- thus laying the foundation for an undivided society- from family to world family.

Visualizing a universal harmonious order in society:

Visualizing a universal harmonious order in society involves imagining a world where people of all backgrounds and beliefs coexist in peace and prosperity, without discrimination or conflict. This harmonious order can be achieved through several means, including:

• **Mutual respect**: Respect for others, regardless of their background or beliefs, is crucial in creating a harmonious society. This can involve valuing each person's unique perspective and treating them with dignity and kindness.

• **Open-mindedness**: Open-mindedness is essential in creating a harmonious society, as it allows people to see beyond their own biases and perspectives and understand the views of others.

• **Empathy**: Empathy is the ability to understand and share the feelings of others. By practicing empathy, individuals can develop a deeper understanding of the experiences and perspectives of others, and work towards resolving conflicts in a peaceful and respectful manner.

• **Inclusiveness**: Inclusiveness involves creating a society where everyone is valued and included, regardless of their race, religion, ethnicity, or other differences. This can involve promoting policies and programs that support diversity and eliminate discrimination.

• **Cooperation**: Cooperation is essential in creating a harmonious society, as it allows people to

work together towards a common goal. This can involve promoting teamwork and collaboration, and encouraging people to put aside their individual interests for the greater good.

• **Communication**: Effective communication is crucial in creating a harmonious society. This can involve promoting open and honest dialogue, and encouraging people to listen actively to each other and understand their perspectives.

There are several theories that attempt to explain how a universal harmonious order in society can be visualized and achieved. Some of these include:

• **Social Contract Theory**: This theory posits that individuals enter into an implicit agreement with each other to give up some individual freedom in exchange for the protection and benefits provided by the state. This agreement creates a harmonious order where everyone has a shared understanding of their rights and responsibilities.

• **Utilitarianism**: This theory states that actions and policies should be evaluated based on their ability to produce the greatest good for the greatest number of people. By focusing on the well-being of society as a whole, utilitarianism seeks to promote a harmonious order.

• **Libertarianism**: This theory emphasizes the importance of individual liberty and limited

government intervention in promoting a harmonious order. By respecting the freedoms and rights of individuals, society can function effectively and efficiently.

• **Communitarianism**: This theory emphasizes the importance of community and the common good in promoting a harmonious order. It holds that individuals have obligations to each other and to their communities, and that a focus on the common good is necessary for a healthy and prosperous society.

Universal Human Order- Harmony from Family Order to World Family Order: It is achieved through Justice. Justice is the recognition of values (the definite feelings) in relationship, their fulfilment, the right evaluation resulting in mutual happiness. Justice concerns itself with the proper ordering of things and people within a society. There are four elements: Recognition of values, fulfilment, evaluation and mutual happiness ensured. When all the four are ensured, justice is ensured. Mutual fulfilment is the hallmark of justice. And justice is essential in all relationships. Justice starts from family and slowly expands to the world family. The child gets the understanding of justice in the family. With this understanding, he goes out in the society and interacts with people.

If the understanding of justice is ensured in the family, there will be justice in all the interactions we have in the world at large. If we do not understand the values in relationships, we are governed by our petty prejudices and conditionings. We may treat people as high or low based on their body (particular caste, or sex or race or tribe), on the basis of wealth one possesses or the belief systems that one follows. All this is source of injustice and leads to fragmented society while our natural acceptance is for an undivided society and universal human order. Having explored the harmony in the human beings, we are able to explore the harmony in the family. This enables us to understand the harmony at the level of society and nature/existence. And this is the way, the harmony in our living grows. We slowly get the competence to live in harmony with all human beings.

Resolution is the mix-up of Right Feeling and Right thought, or say the clarity of Right Understanding, Wisdom, Science, Behavior, Work, Participation in a large order, Undivided Human Society, Universal Human Order and Human Tradition in which Human goal is fulfilled.

• In this phenomenon, The Right Understanding, Wisdom (Identification of Human Goal) and Science (How to fulfil Human Goal) is in the Self (I).

• Behavior, Work, and participation in larger order work as a Human Being which is Self (I) and Body.

• Undivided Human Society, Universal Human Order, and Human tradition work as Outsider.
• Right understanding is essentially seeing the essence of the reality as it is, i.e., seeing the part that is definite, universal and continuous.

1. _____ is the ability to perform a specific task, action or function successfully
a. Competence **b.** Performance
c. Behavior **d.** Attitude

2. Society is and extension of:
a. Friends **b.** City
c. Family **d.** Individual

3. Respect and trust are the need of the _____
a. Self b. Body
c. Mind d. Understanding

4. Knowing means we have the
a. Right understanding b. Confusion
c. Pre conditioning d. All the above

5. Trust, respect and happiness etc are the needs of
a. **Self** b. Body
c. Both (a) and (b) d. None of the above

6. The feeling of responsibility for nurturing, protection and right utilizing the body is
a. **Sanyam** b. Swasthya
c. Both a and b d. None

7. The feeling in the self are
a. Definite b. Can't identify with clarity
c. Variable d. Indefinite

8. The feeling of responsibility to ensure health of body of other is related with
a. Self-regulation **b. Care**
c. Guidance d. Affection
9. Right evaluation of each other's intension and competence is called
a. Affection b. Love
c. Respect d. Trust
10. If I say I am good for nothing it is a kind of
a. Under evaluation b. Right evaluation
c. Otherwise evaluation d. Over evaluation

11. Over evaluation causes
a. Ego **b.** Self confidence
c. Depression **d.** Preconditioning

12. Under evaluation causes
a. Ego **b.** Self confidence
c. Depression **d.** Preconditioning

13. Right evaluation causes
a. Ego **b. Self confidence**
c. Depression **d.** Preconditioning

14. Right evaluation will be on the basis of

a. Self **b.** Body

c. Wealth **d.** Money

15. There are _____ elements of justice

a. 9 b. 2

c. 5 **d. 4**

16. _____ is feeling of being related to all

a. Respect b. Care

c. Affection **d. Love**

17. Disrespect leads to

a. Ego b. Depression

c. Acrimony d. **All the above**

18. _____ is the basic unit of human interaction

a. **Family** b. Society

c. Nature d. Individual

19. You have trust on intension on others, then you will feel

a. Oppose to the other

b. **Related to other**

c. Sometimes oppose sometimes related

d. No feelings

20. _____ is the right evaluation of the other on the basis of self(I)

a. Respect

b. Reverence

c. Affection

d. Trust

21. We can feel being related to other when we have feeling for other

a. Affection and gratitude

b. Care and respect

c. Trust and respect

d. Reverence and glory

22. _____ is our ability to fulfill the aspiration.

a. Competence

b. Purpose

c. Potential

d. Program

23. There are _____ in relationship in one self(I1) for other self(I2)

a. Expectations

b. Desires

c. Feelings

d. Thoughts

24. Acceptance of excellence in others is called_____
a. Gratitude
b. Reverence
c. Glory
d. Love

25. The problems in our relationship with varies entities are due to our
a. Assumptions
b. Misunderstanding
c. Differentiation
d. Relationship

26. Based on the taste, the _____ is triggered
a. Relation
b. **Thoughts**
c. Acceptance
d. Preconditioning

27. In I(self), recognizing and fulfillment depends on
a. Value
b. Relation
c. **Assuming**
d. None of the above

28. Ability to do or perform is known as
a. Value
b. **Competence**
c. Skill
d. Physical

29. Assuming without knowing is
a. Knowing
b. Assuming
c. Preconditioning
d. Relationship

30. Ensuring justice in relationship, on the basis of values leads to
a. Fearlessness
b. Prosperity
c. Coexistence
d. Respect

31. Imagination is combination of
a. Desire and thought
b. Desire, thought and expectation
c. Expectation and thought
d. Human senses

32. 'bhokta' means
a. Doer

b. Seer
c. Enjoyer
d. None of the above

33. Which of the following is not an aspect of relationship
a. Relationship is not between one self (I1) and another self(I2)
b. There are nine feelings in relationship
c. Feelings can be recognized
d. Fulfilment, evaluation leads to mutual happiness

34. You react angrily due to
a. Behavior of others
b. You trust the intention of other
c. You doubt the intention of other
d. You had feeling of opposition

35. LOVE and COMPASSION deals with
a. Right understanding in the self
b. Fulfilment in relationship
c. Ensuring more than required physical facility
d. None

36. Mutual fulfilment is the hall mark of
a. Guidance
b. Reverence
c. Justice
d. Glory

37. When we expect feeling from others for our happiness, it is a state of
a. Swatantrata
b. Partantrata
c. Prosperity
d. None

38. PARATANTRA deals with
a. Within you don't have any definite feeling
b. If the other expresses right feeling, you feel "happy"
c. If the other expresses wrong feeling, you feel "unhappy"
d. All

39. We are similar on the basis of purpose, program and
a. Intention
b. Competence
c. Potential
d. Imagination

40. "other is similar to me" it is the minimum content of
a. Care
b. Guidance
c. Respect
d. Reverence

41. The statement "I and other want to live with continuous happiness and prosperity" indicates our
a. Program
b. Potential
c. Purpose
d. Competence

42. The statement "I and other want to understand and live in harmony at all four levels indicates our
a. Program
b. Potential
c. Purpose
d. Competence

43. The statement "desire, thought and expectation are continuous in me as well as other" indicates our
a. Program **b. Potential**
c. Purpose **d.** Competence

44. The statement – "the other is similar to me and we are complementary to each other" indicates the complete content of
a. Care b. Guidance
c. Respect **d.** Reverence

45. The feeling of being related to other is called
a. Care b. Guidance
c. Respect **d. Affection**

46. The feeling of responsibility and commitment for nurturing and protection of the body of my relative is
a. Care b. Guidance c. Respect d. Reverence

47. The feeling of responsibility and commitment for ensuring right understanding and right feeling in the self of my relative is
a. Care
b. Guidance
c. Respect
d. Reverence

48. Care and guidance are the two outcomes of
a. Glory b. Guidance
c. Respect **d. Affection**

49. The feeling of acceptance for excellence is called
a. Care b. Guidance c. Respect **d. Reverence**

50. The outcome of reverence is
a. Glory **b. Worship** c. Trust d. gratitude

Module 4

1. Which one explains about society

a. People living together, in a relationship of mutual fulfillment

b. People living together, but not in relationship of mutual fulfilment

c. People living separately, in opposition/struggle

d. None of the above

2. How the transition in society can be made possible

a. Recognize where change is required so that effort can be made in these areas

b. Collective effort is essential for the change and effective functioning of a human society

c. Proper coordination amongst people who are thinking, making effort for societal changes

d. All the above

3. Societymeans

a. Human being living together and making collective effort for happiness and prosperity

b. Many families living together making collective effort for a common goal

c. Human being as a basic unit

d. Human cell as a basic unit

4. The word "society" is primarily used in the context of human-_____ relationship

a. Nature

b. Existence

c. Human

d. Family

5. Human – human interaction is called

a. Work

b. Behavior

c. System

d. None

6. Human – rest of nature interaction is called

a. Behavior

b. Work

c. Production

d. All

7. While evaluating present state of the society and system, we found climate change,

environmental pollution, and resource depletion. This is related with

a. Individual

b. Family

c. Society

d. Relationship with rest of nature

8. Terms – aimlessness, confusion, tension, frustration, depression, alcoholism, substance abuse,

obesity, suicide deal with

a. Individual

b. Family

c. Society

d. Relationship with rest of nature

9. Terms – opposition, reaction, anger, strife, court cases, divorce are related with

MODULE-4

a. Individual

b. Family

c. Society

d. Relationship with rest of nature

10. Increasing gap between rich and poor, fear, genocide, domination, exploitation, terrorism, war

deal with

a. Individual

b. Family

c. Society

d. Relationship with rest of nature

11. Find the correct statement

a. Collective effort is essential for the change and effective functioning of a human society,

order,

b. Individual effort can merely initiate societal changes

c. There is a need for proper coordination amongst people who are thinking, making effort for societal changes

d. **All**

12. Human goal at the level of society is

a. Prosperity

b. Fearlessness

c. Co-existence

d. Right understanding

13. Human goal at the level of nature is

a. Prosperity

b. Fearlessness

c. Co-existence

d. Right understanding

14. Terms – definite, continuous, unconditional refers to

a. Right understanding

b. Right feeling

c. Swatantrata

d. **All**

15. When we expect feeling from others for our happiness, if is a state of

a. Swatantra

b. Partantrata

c. Prosperity

d. None

16. Understanding and living in harmony at all 4 levels of beings is called

a. Competition

b. Excellence

c. Reverence

d. Gratitude

17. In _____, one helps to bring the other to his level

a. **Excellence**

b. Reverence

c. Glory

d. None

18. In_____ one hinders the other from reaching to his level

a. Competition

b. Excellence

c. Reverence

d. Gratitude

19. The outcome of reverence is

a. Glory

b. Worship

c. Gratitude

d. None

20. Effort made to achieve excellence is

a. Love

b. Worship

c. Trust

d. None

21. Complementariness means

a. Able to be helpful to each other

b. Able to be willing co-workers, to collaborate in work

c. Able to be together, participate together

d. All

22. Transparency is the situation when

a. My evaluation about myself is the same as my evaluation by the other

b. My evaluation about the other is the same as the evaluation of the other by the other

c. I know that I have rightly evaluated the other

d. The other knows that s(he) has rightly evaluated me

e. All

23. When we feel responsible for taking care of the relative. Thus, we are committed and make

effort to ensure the physical facility or service required for nurturing and protection of the body

of the relative. This is called

a. Trust

b. Generosity

c. Affection

d. None

24. In the process of sharing and ensuring right understanding in the other self, we can see that the

other primarily sees our conduct, our behavior, our living first. She/ he listens and evaluates our

words much later. So, if we want to communicate something to the other, it is essential to have

the right understanding and live with the right feeling, right thought. Living with the right

understanding, right feeling and thought is called

a. Trust

b. Generosity

c. Affection

d. Spontaneity

25. The activities which do not produce anything but are concerned with protection/maintenance

come in category of

a. Production

b. Service

c. Preservation

d. Right utilization

26. which among the following is comprehensive human goal at the level of individual self(I)

a. fearlessness

b. trust

c. mutual fulfillment

d. right understanding

27. which among the following is comprehensive human goal at the level of family

a. fearlessness

b. prosperity

c. mutual fulfillment

d. right understanding

e.

28. which among the following is comprehensive human goal at the level of society

a. fearlessness

b. trust

c. mutual fulfillment

d. right understanding

e.

29. which among the following is comprehensive human goal at the level of nature/existance

a. fearlessness

b. trust

c. mutual fulfillment

d. right understanding

30. different names such as bliss, peace, satisfaction, happiness, fulfillment, salvation, contentment,

enlightenment, liberation, independence, self-actualization, ecstasy, divinity, wellbeing of all etc

have been used for

a. physical facility

b. sensations

c. fearlessness

d. mutual fulfillment

31. _____ seems to be the smallest unit of the social order where majority of thefunctions are

being performed

a. family

b. village

c. system

d. none

32. name of the model village in Bhutan

a. Menchri village

b. khejari village

c. tsangpo village

d. none

33. which of the following are not the indicators for evaluation of dimensions of health

a. having hospitals and medical store in every locality

b. good life style and fast recovery from illness

c. life survival period

d. period over which people remain healthy

34. which of the following are not the indicators for evaluation of dimensions of production

a. every family engaged in some meaningful production

b. every family able to feel the prosperity

c. ensure mutual enrichment with rest of nature

d. producing more with a view of profit maximization

35. which among the following is the indicators for evaluation system implementation

a. different dimensions of the system are running smoothly

b. the system has to put in lot of efforts to do so

c. bigger and bigger structure of central administration to make the different dimension work

d. more and more enforcement through strict laws and police force.

36. Families living together, in a relationship of mutual fulfilment with common goal is called

a. Crowd

b. Battlefield

c. Society

d. None of the above

37. People living together, but not in relationship of mutual fulfilment with differing goals is called

a. Crowd

b. Battlefield

c. Society

d. None of the above

38. People living separately, in opposition/struggle with conflicting goals is called

a. Crowd
